On a Global Mission: The Automobiles of General Motors International Volume 3 Louis F. Fourie, 2016-12-27 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Popular Mechanics, 1996 Product Safety & Liability Reporter, 2003 Ghost in the Well Michael Crandol, 2021-05-20 Ghost in the Well is the first study to provide a full history of the horror genre in Japanese cinema from the silent era to Classical period movies such as Nakagawa Nobuo's Tokaido Yotsuya kaidan 1959 to the contemporary global popularity of J horror pictures like the Ring and Ju-on franchises. Michael Crandol draws on a wide range of Japanese language sources including magazines, posters and interviews with directors such as Kurosawa Kiyoshi to consider the development of kaiki eiga, the Japanese phrase meaning weird or bizarre films that most closely corresponds to Western understandings of horror. He traces the origins of kaika eiga in Japanese kabuki theatre and traditions of the monstrous feminine showing how these traditional forms were combined with the style and conventions of Hollywood horror to produce an aesthetic that was both transnational and peculiarly Japanese. Ghost in the Well sheds new light on one of Japanese cinema's best known genres while also serving as a fascinating case study of how popular film genres are reimagined across cultural divides.

Hillman Cars James Taylor, 2018-04-19 William Hillman started manufacturing cars in Coventry in 1907 before selling his company to the Rootes Brothers in 1928. Three years later came the Hillman Minx, the first of a line that would endure in multiple forms for nearly half a century even after the remarkable Imp arrived in 1963 to claim a slice of the market opened by the BMC Mini. Rarely revolutionary, Hillman cars nevertheless carved out a special place in the hearts of the British people as well as many overseas customers. This beautifully illustrated introduction to a classic British marque traces Hillman's history from its first cars at the turn of the century until weakened
