Although teaching a heavy load, adjuncts are not typically included in on-campus professional development opportunities to improve their teaching skills. This book would be particularly helpful for first-time or relatively novice college-level instructors, including doctoral graduate students teaching their first sections, new community college instructors, and new four-year college and university instructors. It is designed to get novice instructors through their first term with nerves intact and students satisfied. Recommendations are based on empirically supported best practices for teaching while aiming for a concise, slightly irreverent, occasionally humorous style of writing.
