Proposals to raise undergraduate tuition fees led to angry student-led protests. What will become of higher education under this new policy regime? *The Great University Gamble* outlines the architecture of the new frontier for higher education, surveying the financial and policy details. Andrew McGettigan asks the big questions: What will be the role of universities within society? How will they be funded? What kind of experiences will they offer students? Where does the public interest lie? With privatisation infringing on our universities and colleges, education is threatened with transformation from a public good into a private individual financial investment.
