Bestselling author Donald Jeffries turns his critical eye onto the topic of bullying to show how teachers principals and other school officials invariably side with the bullies in the most egregious cases instead of protecting the victims He also shows how many so called anti bullying activists and nearly all the professional experts excuse bullying and in fact laud sociopathic behavior in general As Jeffries demonstrates this curious phenomenon is due to the power and influence of the social hierarchy and it revolves to a great extent around the enduring popularity of sports Jeffries talked to parents who d battled a system that logically should have been working for them some of whom lost a child to bullycide the term for children who kill themselves over bullying His investigation into what has become one of the most talked about issues in America is as explosive and controversial as anything he has written [Models](#) Mark Manson,2011 Models is the first book ever written on seduction as an emotional process rather than a logical one a process of connecting with women rather than impressing them It s the most mature and honest guide on how a man can attract women without faking behavior without lying and without emulating others A game changer Inside you ll learn The root behavior that causes all female attraction Why typical dating advice and pick up theory is counter productive in the long run How to overcome nervousness and anxiety around attractive women How any man can make himself appear attractive with a little time and effort The three keys to keeping conversations with women interesting and engaging How to discover the beliefs and attitudes that are sabotaging your success with women How to develop a genuine and joyful sense of humor And much more I want to tell you that you re probably one of the few people who really got it figured out I m only half way through your book and it s unbelievable how everything is making so much sense to me Everytime I read something in your book I can relate it to some encounter I had with a girl I now understand why I succeeded at times and failed at another Especially the part about vulnerability Even if I did not read the rest of the book I already got what I paid for Thank you Mark Yousif I just finished your book today Models and wanted to tell you that your presentation of the subject is far to superior to anything else I ve read I ve been involved with seduction since 2006 and I ve consumed a lot dating products Many try to make their readers into pickup artists today I gag at the term But you don t do that I like how spend so much time in the book reinforcing the fact that we are good human beings at our core and it s a matter of presenting ourselves honestly without apology to everyone we encounter And you give
