High End Retail Management Training Manual:

Hospitality Retail Management Conrad Lashley, 2009-11-03 Hospitality Retail Management provides students and managers with a practical guide to managing units in hospitality retail organizations. Customers rely on a particular chain of hotels, restaurants, or pubs to provide the same level of service and environment across the board. This standardised service provides the customer with the security of knowing what to expect from that particular organisation. However, this standardisation allows little room for creativity for individual managers to respond to the particular needs of their local market. There is a growing realisation that there is greater profitability if the chain can offer both standardised services across all its retail operations while at the same time allowing local managers the freedom to interpret the needs of its local market as they see fit. Hospitality Retail Management shows managers and students how competitive advantage can be gained by adopting management techniques which are both tight and loose and demonstrates how you can manage businesses with well defined objectives while also allowing local managers to interpret their local market as they see fit. Conrad Lashley has done extensive consultancy with companies such as McDonalds and uses case studies from these companies to reiterate key issues throughout the text.

Luxury Sales Force Management M. Merk, 2014-02-24 The sales team can often make or break the success of new brands or products. This comprehensive guide provides strategies, models, and checklists to help managers and directors strengthen the relationships of their firm's sales force with their own or other brands, maximizing turnover and profit in the long run.

The Retailer's Complete Book of Selling Games and Contests Harry J. Friedman, 2011-12-22 One hundred ways to motivate your sales teams to outsell each other and grow your profits. In most retail stores, salespeople arrive at work with little enthusiasm to sell. The truth is that retail selling can be a little boring. It's up to owners and managers to provide the spark and motivation that inspires people to excel even when store traffic is slow. One of the best ways to accomplish that is with selling games and contests. *The Retailer's Complete Book of Selling Games and Contests* contains more than one hundred selling games and contests that any retailer can use to motivate their staff, improve their sales skills, and generate extra sales during slow traffic periods. Geared toward retailers of all industries and all sizes, from single stores to mega chains, this book will appeal to those with a vested interest in improving the performance of their salespeople and driving sales higher. Details how to use games to sell specific merchandise, increase add-on sales, and sell higher priced merchandise and groups of merchandise. Outlines how to structure games and contests, when to run them, and for how long. Helps managers build their sales staffs' confidence and abilities through fostering a competitive spirit and rewarding high sellers. Harry J. Friedman is an international retail authority, consultant, and the most heavily attended speaker on retail selling and operational management in the world today. When you inspire your sales team to improve their skills and outsell each other, you'll boost your profits and outdo your competition.
