**Kangaroos** Terence J. Dawson, 2012 Appreciation of the diversity of kangaroos in Australia and their lifestyles Insight into the ecology of kangaroos as it pertains to conservation issues Provides an understanding of the historical evolution of a major group of Australian

mammals This book provides a clear and accessible account of kangaroos showing how their reproductive patterns social structure and other aspects of their biology make them well adapted to Australia s harsh climate and demanding environment Since the last edition of this book nearly 20 years ago much more is now known about the biology and ecology of these iconic animals This completely revised edition describes these new perspectives and attempts to counter the many urban and rural myths that still exist Liberia and the Dialectic of Law Shane Chalmers,2018-05-16 It is the condition of modernity that an institution cannot depend on a god tradition or any other transcendental source to secure its foundations which thereby come to rest upon or rather in and through its subjects Never wholly separated from its subjects and yet never identical with them this contradictory condition provides a way of seeing how modern law gives form to life and how law takes form enlivened by its subjects By driving Theodor Adorno s dialectical philosophy into the concept of law the book shows how this contradictory condition enables law to become instituted in ways that are hostile to its subjects but also how law remains open to its subjects and thus disposed towards transformation To flesh out an understanding of this contradiction the book examines the making and remaking of Liberia from its conception as an idea of liberty at the beginning of the nineteenth century to its reconstruction at the beginning of the twenty first with the assistance of an international intervention to establish a state based on the rule of law In so doing the book shows how law is at the epicentre of a colonising power in Liberia that renders subjects as mere objects but at the same time the book exposes the instability of this power by showing how law is also enlivened by its subjects as it takes form in and through their lives and interactions It is this fundamentally contradictory condition of law that ultimately denies power any absolute hold leaving law open to the self expression of its subjects
