Fredericks, *Religion, Christian Faith, and Secular World* LIT Verlag, 2019-01-07 What has been the role and understanding of religion in the last hundred years and what can be the meaning of religion today There is a well known ongoing process of secularization in the Western world Is there also a return of religion And what does the fate of religion mean for an understanding of the Christian faith These are topics of this book The articles originate from the actual fields of research of an interdisciplinary group of scholars who took part in a symposium held in Bergen Nov 2019 The contributions relate to specific contexts in the modern history of religion from the perspective of religious studies theology philosophy and sociology The editors are Hans Bringeland Assoc Prof and Arve Brunvoll Prof emer both teachers of theology and philosophy at NLA University College Bergen Norway Christian Faith Hendrikus Berkhof, 1991 In today's secular world the Christian faith is viewed as only one aspect of what could be called religious life Acknowledging this Hendrikus Berkhof begins this thought provoking study with a sketch of religion and faith in general before narrowing it down to a discussion of the specific place of Christian faith in all of reality Theology David Ford, 2013-10-24 This Very Short Introduction provides both the believer and non believer with a balanced survey of the central questions of theology David Ford's approach draws us in to considering the principles underlying religious belief including the centrality of salvation to most major religions the concept of God in ancient modern and postmodern contexts the challenge posed to theology by prayer and worship and the issue of sin and evil He also probes the nature of experience knowledge and wisdom in theology and discusses what is involved in interpreting theological texts In this new edition Ford considers the contemporary relevance of theology including the effect of globalization and digitized communication examines the theological responses to change and development in science considers the impact of increased engagement between Islam and the West and looks at the development and importance of theology between the different faiths ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Tracing the Contours of Faith** Fehr, Wayne L. Fehr, 2013-09 This book is a collection of brief essays written in response to specific questions about the Christian faith vision of reality The questions addressed here have arisen out of the experience of ordinary Christians trying to make sense of their faith Some are asking about particular Church words Some are expressing difficulties in believing Some are probing the paradoxes of Christian existence The author responds as a professional theologian writing in a non technical way for fellow believers His purpose is to make the best insights of sound theology available to ordinary Church members in order to minister to their faith life Although many of these brief essays are limited in scope there is a coherent understanding of Christian faith that underlies all of them Each essay is simply articulating part

of that understanding in response to a specific question Wayne Fehr has been a priest for many years first in the Roman Communion where he was ordained in 1969 as a member of the Jesuit Order and then later in the Anglican Communion where he was received as a priest by the Bishop of Milwaukee in 1988 He is also an academic theologian with a doctoral degree in religious studies systematic theology from Yale University and a number of years of teaching experience on the graduate level as well as with undergraduates These two vocational commitments as priest and as theologian have come together for him in a life long involvement with the interpretation of Christian faith for the benefit of his fellow believers At present he is a member of Trinity Episcopal Church in Wauwatosa Wisconsin where he serves as Priest Associate Previous books are his doctoral dissertation *The Birth of the Catholic Tübingen School* and with Donald Hands *Spiritual Wholeness for Clergy*

Fischer, Thomas N. Hart, 1995 I found myself praying from Christian Foundations in new ways Of course like most academics I had heard it all before But I haven't not this way at least It was truly an experience of talking to God while thinking about God not a bad way to do theology Needless to say I will use it with my undergraduates Dr Thomas Groome Boston College

Theology and Religion Graham Ward, 2019-02-25 Graham Ward argues that the study of theology and religion as a single academic discipline plays a vital role in helping us to understand politics world affairs and the nature of humanity itself Religion can be used to justify inhumane actions but it also feeds dreams inspires hopes and shapes aspirations By invoking a sense of wonder about the natural world religion can promote scientific discoveries and by focusing on shared experiences religion helps to bind societies together Some scientists now believe that religious feeling might be hard wired into our DNA a fundamental aspect of what makes us human Because religion is rooted in the imagination itself its study involves staring into the profundities of who we are Religion will not go away so it needs to be understood **An Introduction to Theology**

Mitchell, 2013-07-18 When this book was originally published in 1957 there had been lively debates on the air and in the press about the bearing of modern philosophy upon Christianity but there had been relatively little sustained discussion of the subject This book of essays was the product of a small group of Oxford philosophers and theologians who had met and talked informally for some years before writing it It is an attempt to discuss with care and candour some of the problems raised for Christian belief by contemporary analytical philosophy In asking the questions raised this book makes articulate the perplexities of many intelligent people both believers and unbelievers The contributors concentrate on the way such concepts as God Revelation the Soul Grace are actually used rather than asserting or denying some very general theory of meaning Reason & the Contours of Faith Richard Rice, 2013-05-17 Can reason and religion get together Should believers think Can thinking people believe Does religion have to make sense Does careful thinking help or hinder religious experience People have wrestled with such questions for hundreds of years and they are just as perplexing today as ever Reason the Contours of Faith explores the wide ranging issues these questions raise from biblical interpretation and proofs for God's existence to the nature of religious conversion Its central purpose is to find an alternative to both fideism the idea that reason has nothing to do with faith and rationalism the conviction that reason has everything to do with it Part One Reason and the Contents of Faith argues that reason contributes in important but limited ways to our understanding of religion Part Two Reason and the Experience of Faith shows that reason can support religious commitment but never produces it

Monotheism and Faith in God Ian G. Wallis, 2020-12-24 After offering a brief overview of the role of faith within Judaism Christianity and Islam an interdisciplinary analysis of faith belief belief systems and the act of believing is undertaken The debate over the nature of doctrine between George Lindbeck and Alister McGrath brings into focus four ways in which

beliefs can be employed expressive interpretative formative and referential relational An analysis of monotheistic belief ensues which demonstrates how it can function meaningfully in each of these modes including the last where insights from phenomenology and relational ontology as well as philosophical theology favour a participatory approach in which God is encountered not as an object of investigation but as that transcendent Other whose worship is the fulfilment of human being The study concludes by highlighting convergences between the nature of faith presented in the initial scriptural overview and that developed throughout the rest of the study

Tracing the Contours of Faith Wayne Fehr, 2024-09-18 This book is addressed to Christian believers who are feeling the ambiguities and challenges of a life of faith Many of them may be uncertain about the meaning of the faith which they profess The familiar words that they hear in sermons and prayers seem at times to belong to a reality far removed from the actual world they live in They need to discover a meaning of their faith that they can relate to their own life experience and their general knowledge of the world This book is a collection of brief essays written in response to specific questions about the Christian faith s vision of reality The questions addressed here have arisen out of the experience of ordinary Christians trying to make sense of their faith Some are asking about particular Church words Some are expressing difficulties in believing Some are probing the paradoxes of Christian existence The author responds as a professional theologian and priest writing in a non technical way for fellow believers His purpose is to make the best insights of sound theology available to them to minister to their faith life Although many of the essays are limited in scope there is a coherent understanding of the Christian faith that underlies all of them Each essay is simply articulating part of that understanding in response to a specific question

Radical Theology and Emerging Christianity Katharine Sarah Moody, 2016-03-03 The theological turn in continental philosophy and the turn to Paul in political philosophy have occasioned a return to radical theology a tradition whose philosophical heritage can be traced to the death of God announced in the work of Nietzsche and Hegel John D Caputo s deconstructive theology and Slavoj Zizek s materialist theology are two radical theologies that explore what it might mean to pass through the death of God and to abandon this experience as specifically Christian Radical Theology and Emerging Christianity demonstrates how these theologies are transforming everyday religious practices through an examination of the work of Peter Rollins and Kester Brewin two figures at the radical margins of a contemporary expression of Western religiosity called emerging Christianity The author uses her analysis of all four figures to argue that deconstructive practices can enable religious communities to become part of a wider materialist collective in which the death of God continues to resonate Pushing the methodological boundaries of philosophy of religion by examining religious practices as the site of philosophical signification the book challenges scholars and practitioners alike to a new and more demanding dialogue between theory and practice

Faith and Reason Steve Wilkens, 2014-06-10 Steve Wilkens edits a debate between three different understandings of the relationship between faith and reason between theology and philosophy The three views include Faith and Philosophy in Tension Faith Seeking

Understanding and the Thomistic Synthesis This introduction to a timeless quandary is an essential resource for students
