Chapters in Part II look at community languages ranging from the historic minority languages such as Korean and Chinese to the languages spoken by more recent migrant communities such as Nepali Filipino and Persian The final part examines languages of culture politics and modernization from the use of English in international business and education contexts to the ongoing use of Latin and Sanskrit for religious purposes The volume sheds new light on Japan s position as an important multilingual and multicultural society and will be of interest to scholars and students not only of Japanese and sociolinguistics but of Asian studies and migration studies more widely
