The Future of Post-Human Law Peter Baofu, 2010-02-19 What makes the rule of law so special that it is to conscientiously punish the bad doers and reward the good ones such that where there is the rule of law peace and order are to be expected so that the rule of law is better than the rule of any individual Take the case of international law as an illustration While different international courts have been busy going after the killers of innocent victims in Rwanda and Liberia they have turned a blind eye to the major powers which have killed on a much larger and more brutal scale by comparison innocent civilians in Iraq and Afghanistan just to cite two current examples Contrary to the conventional wisdom conveniently held by many in human history the rule of law has its other side which has not yet been systematically understood such that the rule of law is neither possible nor desirable to the extent that the defenders of legal institutions in human history would like us to believe Lest any misunderstanding hastily occur this is not to imply that the rule of law is absolutely useless or that the literature in jurisprudence and other related fields like political philosophy ethics law and economics and the sociology of law should be dismissed because of its scholarly irrelevance Of course neither of these two extreme views is reasonable either Instead this book provides an alternative better way to understand the nature of law in relation to its necessity and contingency in the context of justice while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other In the process this book offers a new theory to transcend the existing approaches in the literature in a new direction in that in the end there is no justice without injustice and that it will be transcended too This seminal project if successful will

fundamentally change the way that we think about the nature of law from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate

Mazzula,Pamela LiVecchi,2017-12-05 It is one thing to discuss these matters clearly and often but it is another to make them living experiences for the reader I am particularly impressed by the many ways in which the authors strive to involve the readers whether it be by presenting dilemmas to consider or spelling out activities that highlight the points under consideration This not only is a book that students will read with interest and enthusiasm it also is one that will make the task of the instructor clear and easier to accomplish George Stricker PhD Argosy University The only text to integrate ACA and APA ethics standards and address ethical aspects of self care This is the first

textbook to integrate both ACA and APA standards of ethics for programs spanning both counseling and psychology disciplines. It provides a clear comprehensive review of ethical standards and guidelines by the ACA and APA and distills the essence of both to find common ground for counselors and psychologists to understand and engage in ethical decision making. The text also clarifies legal requirements at state/federal levels and facilitates critical thinking regarding the complex intersections of legal requirements and ethics codes in a way that is easily understandable. Focusing on key issues such as confidentiality, professional boundaries, professional and multicultural competence, social media, and situations with colleagues, the book is also unique in its inclusion of how ethical guidelines are impacted by self-care. Chapters engage readers with self-assessment questions, illustrative case vignettes, and discussion questions. A glossary of terms helps to clarify legal and ethical terminology, and additional resources direct readers to more in-depth research. The text is ideally suited to meet the needs of both CACREP and non-CACREP programs that train counselors who work in an interprofessional climate of mental health care. It is also useful for undergraduate programs in addiction and substance abuse services, counseling, and An Instructor's Manual provides additional value.

Key Features:

- Reviews and integrates both ACA and APA ethical standards and guidelines.
- Designed for both CACREP and non-CAPREP approved programs staffed by individuals representing both ACA and APA standards.
- Focuses on confidentiality, professional boundaries, competence, social media, and responsibilities to colleagues.
- Offers information on ethics of counselor self-care.
- Includes case vignettes with discussion questions, self-assessment questions, glossary, and Instructor's Manual.
