The World Health Organization WHO has recognized stress as the health epidemic of the twenty first century The facts are alarming About 70 percent of American are on at least one prescription medication with antidepressant being the second

most common type of drugs Up to 90 percent of doctors visits are for stress related problems Nearly 75% of U S workers reports experiencing physical and psychological symptoms of stress How can we fix this Wearable technologies now have the ability to collect objective biometric data from the hearts of their users and identify in real time their emotions by 2022 10% of personal device will have emotion AI capabilities Researchers have found out that variability in the heart rate known as HRV is the most reliable biometric data for gaining insight into an individual s discrete emotional states Thus every emotion such as fear anger or joy has its own signature associated with a unique HRV information pattern Given recent breakthroughs in science and technology it s now possible to build a worldwide token economy that can influence behavior in ways never before possible throughout the history of humanity By issuing a digital token each time an individual experiences a positive emotion I Coin can monetize the bits that come from the hearts of mankind as different HRV signals are associated with different emotional states I Coin reward system literally fosters the development of neurological pathways in the brain that are related to healthy habits Thus behaviors that bring positive emotions are reinforced and unhealthy negative emotions are deterred I Coin is the first worldwide behavioral digital currency that enables individuals to monetize the quality of their emotions based on their own biometric data This can lead to fulfillment of the purpose of humanity the end of suffering and the pursuit of happiness In this book I explain how this token economy will lead to happier healthier and more productive citizens I Coin has real intrinsic value for individuals corporations and the government and it s also a natural complement to the existing monetary system
