Question: Which of the following is NOT a principle of corporate governance?

- a. Accountability to shareholders and stakeholders
- b. Transparency and disclosure of information
- c. Fairness and equity
- d. Maximization of shareholder value at all costs

Answer: d

- a. Accountability to shareholders and stakeholders
 - b. Transparency and disclosure of information
 - c. Fairness and equity
 - d. Maximization of shareholder value at all costs
- The primary objective of corporate governance is to ensure the long-term sustainable growth of the company while protecting the interests of all stakeholders. This includes the shareholders, but also the employees, customers, suppliers, and the community at large. Maximizing shareholder value at all costs is not a principle of corporate governance, as it can lead to unethical behavior and short-termism.
