**A Life in Fifty Books** Anthony Cheetham,2025-03-06 There are good publishers and there are great publishers

And then there's Anthony Cheetham Richard Dawkins In November 1966 by way of Mexico City Eton College Balliol College Oxford and a Norwegian raspberry farm Anthony Cheetham entered the doors of a publishing company for the first time to begin work as a junior editor Fifty eight years later he could look back on a career in which he had shaped the landscape of post war British publishing to a significant degree having established such prominent and notably successful companies as Century Orion Quercus and Head of Zeus and launched imprints from Abacus in 1973 to Zephyr in 2017 that continue to flourish in the third decade of the twenty first century Starting with Homer's Odyssey and ending with works by the evolutionary biologist Richard Dawkins and the German historian Ernst Kantorowicz Anthony Cheetham has selected fifty books as mileposts with which to map the course of his long and productive career Many of these are titles that he himself published Dune The Thorn Birds A Suitable Boy Meetings with Remarkable Trees The Girl with the Dragon Tattoo some are books he wished he had published Stephen Hawking's A Brief History of Time others are simply masterworks that left an indelible mark on him The Lord of the Rings War and Peace A Life in Fifty Books is an affectionate and revelatory account of a publishing life remarkable for its longevity its entrepreneurial energy and for the breadth and catholicity of its output which runs the gamut of seriousness from academically distinguished works of history science and philosophy to Confessions of a Window Cleaner Full of encounters with remarkable individuals as well as extraordinary books and embellished with beautiful photographs of book jackets from the 1950s to the present day A Life in Fifty Books is an engagingly written survey of an industry which in its author's well chosen words offers its practitioners a passport to roam across the entire spectrum of human experience endeavour and belief

**The Second Law of Life** John E.J. Schmitz, 2007-01-22 In this compelling and important book John Schmitz brings order to the world of chaos that surrounds us The Second Law of Life refers to the second law of thermodynamics entropy which is an omnipresent force that quietly and crucially determines every aspect of our society culture and daily lives Unless we come to understand entropy future generations will face consequences of the unstoppable laws of physics Entropy explains the amount of energy no longer capable of doing work in other words wasted energy or heat loss Each moment of every day we lose irreplaceable energy and modern technology is not helping In fact it is accelerating the problem at a catastrophic rate And we will ultimately face a heat death crisis and utter destruction of the Earth Even actions we take to improve the environment may actually do more damage than good For example recycling is considered environmentally socially and politically correct Under the influence of entropy however it is a prolific waster of energy we must look at entire systems not just parts It is critical that we find ways to reduce energy loss Seeing the problems with greater clarity will lead to solutions This fascinating and accessible journey through the second law of thermodynamics is a step in the right direction
