Slow Burn R. Jisung Park, 2025-07-29 How the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle

them today It s hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In *Slow Burn* R Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally

Johnson,2019-04-16 An acclaimed economist reveals that school integration efforts in the 1970s and 1980s were overwhelmingly successful and argues that we must renew our commitment to integration for the sake of all Americans We are frequently told that school integration was a social experiment doomed from the start But as Rucker C Johnson demonstrates in *Children of the Dream* it was in fact a spectacular achievement Drawing on longitudinal studies going back to the 1960s he shows that students who attended integrated and well funded schools were more successful in life than those who did not and this held true for children of all races Yet as a society we have given up on integration Since the high point of integration in 1988 we have regressed and segregation again prevails Contending that integrated well funded schools are the primary engine of social mobility *Children of the Dream* offers a radical new take on social policy It is essential reading in our divided times *The Journal of Education* Thomas Williams Bicknell,Albert Edward Winship,Anson Wood Belding,1876 *A Global Perspective of Young Adolescents' Peer Aggression and Well-being* Grace Skrzypiec,Mirella Wyra,Eleni Didaskalou,2019-07-19 Reporting on the findings from a study of young people across 11 different world locations Australia Mainland China Greece India Indonesia Italy Korea The Philippines Poland Spain and Taiwan *A Global Perspective of Young Adolescents' Peer Aggression and Well-being* looks beyond bullying to assess the harm to mental health and well being of young people experiencing peer aggression in all its forms The first book in a global movement that recommends a new dialogue on peer aggression this book delves into the poorly understood nexus of peer aggression and bullying through the use of statistical data from questionnaires as well as the students own words and illustrations By considering data from multiple countries it addresses critical questions about cultural variation in aggression and associated well being Addressing the issue that there is a growing focus on other forms of aggression other than bullying *A Global Perspective of Young Adolescents' Peer Aggression and Well-being* will offer invaluable insight for practicing teachers and school counsellors as well as any researchers with an interest in the health and well being of young adolescents
