

Misc. User Notes:

Included with the Magnepan SMGa speakers are two brass-colored metal badges. They are each 1.25" (3.18cm) square, about 1/8" thick, and appear to have an adhesive backing (I'm not sure how well they stick because I've never tried them). They are both wrapped in a small sealed plastic bag. Because they are made of some sort of metal, they have a nice heft to them, similar to a large coin.

SMGa—incorporates most of the unique qualities of the large expensive models, at an affordable price. This smallest and most popular model is for the serious music lover on a budget and works best in smaller listening rooms. The SMGa can be placed against the wall when you are listening to background music or pulled out 2 or 3 feet to appreciate their full potential. The SMGa is our most efficient model and can be driven with smaller receivers and amplifiers or can be part of a serious audiophile system, utilizing the best of equipment.

The music lover on a budget can now own a music system that will bring him or her much closer to the excitement of a live performance. Available in three trim colors (brass, or chrome), and three fabric colors (off-white, black, or brown).
