From Behind the Curtain Mareike Jule Winkelmann, 2005 Annotation In the aftermath of 9/11 Islamic seminaries or madrasas received much media attention in India mostly owing to the alleged link between madrasa education and forms of violence Yet while ample information on madrasas for boys is available similar institutions of Islamic learning for girls have for the greater part escaped public attention so far This study investigates how madrasas for girls

emerged in India how they differ from madrasas for boys and how female students come to interpret Islam through the teachings they receive in these schools Observations suggest that next to the official curriculum the informal curriculum plays an equally important role It serves the madrasa s broader aim of bringing about a complete reform of the students morality and to determine their actions accordingly This title can be previewed in Google Books <http://books.google.com/books> vid ISBN9789053569078 This title is available in the OAPEN Library <http://www.oapen.org> **School Government**
