Human-Computer Interaction - INTERACT 2015 Julio Abascal, Simone Barbosa, Mirko Fetter, Tom Gross, Philippe Palanque, Marco Winckler, 2015-08-31 The four volume set LNCS 9296 9299 constitutes the refereed proceedings of the 15th IFIP TC13 International Conference on Human Computer Interaction INTERACT 2015 held in Bamberg Germany in September 2015 The 41 papers included in the first volume are organized in topical sections on accessibility accessible interfaces for blind people accessible interfaces for older adults affective HCI and emotions and motivational aspects alternative input alternative input devices for people with disabilities interfaces for cognitive support brain computer interaction cognitive factors **Embodying Exchange** Juliane Müller, 2024-02-02 Addressing the infrastructural social and legal complexities of a global commodity chain this book uses an ethnographic analysis of the encounter between multinational corporations and popular traders in the Bolivian Andes It offers a situated account of the everyday work of chain un making and practices of translation accommodation and contention It highlights traders collective action understanding of economic concepts and regulatory principles and traces the circulation of goods and money beyond market exchange All in all it aims to comprehend the reproduction of the native trading system amid global connections and to humanize our understanding of the economy by grounding it in everyday life bottom up socio material infrastructures and morality **Exploring Materiality and Connectivity in Anthropology and Beyond** Philipp Schorch, Martin Saxer, Marlen Elders, 2020-03-30 Exploring Materiality and Connectivity in Anthropology and Beyond provides a new look at the old anthropological concern with materiality and connectivity It understands materiality not as defined property of some thing nor does it take connectivity as merely a relation between discrete entities Somewhat akin to Heisenberg's uncertainty principle it sees materiality and connectivity as two interrelated modes in which an entity is or more precisely is becoming in the world The question thus is how these two modes of becoming relate and fold into each other Throughout the four year research process that led to this book the authors approached this question not just from a theoretical perspective taking the suggestion of thinking through things literally and methodologically seriously the first two workshops were dedicated to

practical hands on exercises working with things From these workshops a series of installations emerged straddling the boundaries of art and academia These installations served as artistic academic interventions during the final symposium and are featured alongside the other academic contributions to this volume Throughout this process two main themes emerged and structure Part II Movement and Growth and Part III Dissolution and Traces of the present volume respectively Part I Conceptual Grounds consists of two chapters offering conceptual takes on things and ties one from anthropology and one from archaeology As interrelated modes of becoming materiality and connectivity make it necessary to coalesce things and ties into thing ties an insight toward which the chapters and interventions came from different sides and one in which the initial proposition of the editors still shines through Throughout the pages of this volume we invite the reader to travel beyond imaginaries of a universe of separate planets united by connections and to venture with us instead into the thicket of thing ties in which we live

Lifelogging for Organizational Stress Measurement Thomas Fischer, René Riedl, 2018-09-26 In recent decades organizational stress researchers have repeatedly called for more longitudinal studies This book argues that tools and devices that have been developed for the private or organizational domains could be helpful when it comes to studying longitudinal phenomena as they offer unobtrusive measurement and are frequently employed by many individuals in daily life In particular the book examines lifelogging a research field that addresses the computer based collection of individual experiences Further it highlights areas in organizational stress research that benefit from insights in the lifelogging literature and provides a summary of tools that can be used for stress measurement It also offers an overview of the latest research and current developments on lifelogging and organizational stress for researchers interested in self measurement of stress related effects and for organizational stress researchers

Biometrics in a Data Driven World Sinjini Mitra, Mikhail Gofman, 2016-12-01 Biometrics in a Data Driven World Trends Technologies and Challenges aims to inform readers about the modern applications of biometrics in the context of a data driven society to familiarize them with the rich history of biometrics and to provide them with a glimpse into the future of biometrics The first section of the book discusses the fundamentals of biometrics and provides an overview of common biometric modalities namely face fingerprints iris and voice It also discusses the history of the field and provides an overview of emerging trends and opportunities The second section of the book introduces readers to a wide range of biometric applications The next part of the book is dedicated to the discussion of case studies of biometric modalities currently used on mobile applications As smartphones and tablet computers are rapidly becoming the dominant consumer computer platforms biometrics based authentication is emerging as an integral part of protecting mobile devices against unauthorized access while enabling new and highly popular applications such as secure online payment authorization The book concludes with a discussion of future trends and opportunities in the field of biometrics which will pave the way for advancing research in the area of biometrics and for the deployment of biometric technologies in real world applications The book is designed for individuals interested in exploring the

contemporary applications of biometrics from students to researchers and practitioners working in this field Both undergraduate and graduate students enrolled in college level security courses will also find this book to be an especially useful companion Daily Graphic Kingsley Inkoom,2014-09-29 **The Herald** ,2011
