Lignes De Fuite Pour Un Autre Monde De Possibles:

Lignes de fuite Félix Guattari, 2024-08-30 Guattari Beyond Deleuze Carlos A. Segovia, 2024-11-08 This book argues that by virtue of his original and ongoing contribution to ontology and modal philosophy from the texts gathered in *Psychanalysis and Transversality* to the unpublished manuscript notes for *What Is Philosophy* Guattari is to be acknowledged a philosopher in his own right independently from Deleuze Furthermore it looks back and forth beyond *Anti Oedipus* and contends that Guattari's major writings gradually supplement deterritorialization with determinability Accordingly it offers a new interpretation of the nuanced development of Guattari's philosophical thought which it proposes to define as constructivist rather than post structuralist Additionally it explores the innovative responses that Guattari's philosophy supplies to various contemporary philosophical debates like those on accelerationism indeterminacy compossibility and worlding Finally it examines the differences that upon a careful cross reading of their earliest texts including *The Anti Oedipus Papers* and *Difference and Repetition* must be drawn between Guattari's constructivism and Deleuze's sacrificial philosophy

Machinic Assemblages of Desire Paulo de Assis, Paolo Giudici, 2021-03-01 The concept of assemblage has emerged in recent decades as a central tool for describing analysing and transforming dynamic systems in a variety of disciplines Coined by Deleuze and Guattari in relation to different fields of knowledge human practices and nonhuman arrangements assemblage is variously applied today in the arts philosophy and human and social sciences forming links not only between disciplines but also between critical thought and artistic practice *Machinic Assemblages* focuses on the concept's uses transpositions and appropriations in the arts bringing together the voices of artists and philosophers that have been working on and with this topic for many years with those of emerging scholar practitioners The volume embraces exciting new and reconceived artistic practices that discuss and challenge existing assemblages propose new practices within given assemblages and seek to invent totally unprecedented assemblages

Unexceptional Politics Emily Apter, 2018-02-06 A new vision of politics below the radar One way to grasp the nature of politics is to understand the key terms in which it is discussed *Unexceptional Politics* develops a political vocabulary drawn from a wide range of media political fiction art film and TV highlighting the scams imbroglions information trafficking brinkmanship and parliamentary procedures that obstruct and block progressive politics The book reviews and renews modes of thinking about micropolitics that counter notions of the state of exception embedded in theories of the political from Thomas Hobbes to Carl Schmitt Emily Apter develops a critical model of politics behind the scenes a politics that operates outside the norms of classical political theory She focuses on micropolitics defined as small events happening in series that often pass unnoticed yet disturb and interfere with the institutional structures of capitalist parliamentary systems even as they secure their reproduction and longevity Apter's experimental glossary is arranged under headings that look at the apparently incidental immaterial and increasingly virtual practices of politicking obstruction obstinacy psychopolitics managed life serial politics Such terms frame an argument for

taking stock of the realization that we really do not know what politics is where it begins and ends or how its micro events should be described

The Dark Precursor Paulo de Assis, Paolo Giudic, 2017-11-14 Deleuze's and Guattari's philosophy in the field of artistic research Gilles Deleuze's intriguing concept of the dark precursor refers to intensive processes of energetic flows passing between fields of different potentials Fleetinglly used in *Difference and Repetition* it remained underexplored in Deleuze's subsequent work In this collection of essays numerous contributors offer perspectives on Deleuze's concept of the dark precursor as it affects artistic research providing a wide ranging panorama on the intersection between music art philosophy and scholarship The forty eight chapters in this publication present a kaleidoscopic view of different fields of knowledge and artistic practices exposing for the first time the diversity and richness of a world situated between artistic research and the philosophy of Gilles Deleuze and Félix Guattari Within different understandings of artistic research the authors composers architects performers philosophers sculptors film makers painters writers and activists map practices and invent concepts contributing to a creative expansion of horizons materials and methodologies Contributors VOLUME 1 Paulo de Assis Arno Böhler Edward Campbell Diego Castro Magas Pascale Criton Zornitsa Dimitrova Lois Fitch Mike Fletcher Paolo Galli Lindsay Gianoukas Keir GoGwilt Oleg Lebedev Jimmie LeBlanc Nicolas Marty Frédéric Mathevet Vincent Meelberg Catarina Pombo Nabais Tero Nauha Gabriel Paiuk Martin Scherzinger Einar Torfi Einarsson Steve Tromans Toshiya Ueno Susanne Valerie Audron ukauskait VOLUME 2 ric Alliez Manola Antonioli Jirat Baranova Zsuzsa Baross Anna Barseghian Ian Buchanan Elena del Río Luis de Miranda Lucia D'Errico Liliya Duoblien Adreis Echzehn Jae Emerling Verina Gfader Ronny Hardliz Rahma Khazam Stefan Kristensen Erin Manning John Miers Elfie Miklautz Marc Ngui Andreia Oliveira Federica Pallaver Andrej Radman Felix Rebolledo Anne Sauvagnargues Janae Sholtz Mhairi Vari Mick Wilson Elisabet Yanagisawa

The Performance Apparatus Branislav Jakovljevic, 2025-04-15 The publication of Louis Althusser's 1969 article *Ideology and Ideological State Apparatuses* made a deep impact on cultural studies and was instrumental in the formation of the apparatus theory in film studies While contemporaneous with the emergence of performance art this article and the questions of ideology and apparatus it raises barely registered in the field of performance studies which was then in its formative phase Jakovljevi takes this absence of Althusser's apparatus theory from performance studies as an indicator of the ideological position of the field at the moment of its emergence arguing that while theories of ideology played no major role in early performance studies performance art itself offered a number of incisive critiques of ideology Jakovljevi looks at permutations of the apparatus by investigating the work of theorists such as Louis Althusser Michel Foucault Gilles Deleuze and Judith Butler and engagements with the apparatus by a number of artists such as Amiri Baraka Philippe Thomas New York Art Language Terry Fox Every house has a door Clive Robertson and Cassils Jakovljevi suggests that the centrality of behavior in early performance theory is important for the understanding of contemporary society which is dominated by surveillance capitalism If ideology is lodged in behaviors and if surveillance capitalism thrives on the monetization of the

behavioral surplus then performance theory can make significant contributions to our understanding of the moment in which we live and the future we are facing The Performance Apparatus argues for the importance of continuing attention to the question of ideology in contemporary neoliberal order Continental Theory Buffalo David R. Critical Semiotics Gary Genosko,2016-09-22 *Critical Semiotics* provides long overdue answers to questions at the junction of information meaning and affect The affective turn in cultural studies has received much attention a focus on the pre individual bodily forces linked to automatic responses which augment or diminish the body s capacity to act or engage with others In a world dominated by information how do things that seem to have diminished meaning or even no meaning still have so much power to affect us or to carry on our ability to affect the world Linguistics and semiotics have been accused of being adrift from the affective turn and not accounting for these visceral forces beneath or generally other from conscious knowing In this book Gary Genosko delivers a detailed refutation with analyses of specific contributions to critical semiotic approaches to meaning and signification People want to understand how other people are moved and to understand embodied social actions feelings and passions at the same time as understanding how this takes place Semiotics must make
