Maiden Witch The Maidens Curse Book English Edition:

The Curse of the Werewolf Bourgault du Coudray Chantal, 2006-08-25 Half man half myth the werewolf has over the years infiltrated popular culture in many strange and varied shapes from Gothic horror to the body horror films of the 1980s and today's graphic novels Yet despite enormous critical interest in myths and in monsters from vampires to cyborgs the figure of the werewolf has been strangely overlooked Embodying our primal fears of anguished masculinity of the beast within the werewolf argues Bourgault du Coudray has revealed in its various lupine guises radically shifting attitudes to the human psyche Tracing the werewolf's use by anthropologists and criminologists and shifting interpretations of the figure from the scientific to the mythological and psychological Bourgault du Coudray also sees the werewolf in Freud's wolf man case and the sinister use of wolf imagery in Nazism The Curse of the Werewolf looks finally at the werewolf's revival in contemporary fantasy finding in this supposedly conservative genre a fascinating new model of the human's relationship to nature It is a required reading for students of fantasy myth and monsters No self-respecting werewolf should be without it
