Making A Difference Teacher Poem:

Making a Difference in Education Robert Cassen, Sandra McNally, Anna Vignoles, 2015-04-24 What is working in education in the UK and what isn't This book offers a highly readable guide to what the latest research says about improving young people's outcomes in pre school primary and secondary education Never has this issue been more topical as the UK attempts to compete in the global economy against countries with increasingly educated and skilled work forces The book discusses whether education policy has really been guided by the evidence and explores why the failings of Britain's educational system have been so resistant to change as well as the success stories that have emerged Making a Difference in Education looks at schooling from early years to age 16 and entry into Further Education with a special focus on literacy numeracy and IT Reviewing a large body of research and paying particular attention to findings which are strong enough to guide policy the authors examine teacher performance school quality and accountability and the problematically large social gap that still exists in state school education today Each chapter concludes with a summary of key findings and key policy requirements As a comprehensive research review Making a Difference in Education should be essential reading for faculty and students in education and social policy and of great interest to teachers and indeed to anyone who wants to know about the effectiveness of UK education policy and practice and where they should be going

The Perfect Teacher Louisa Leaman, 2008-09-15 The Perfect Teacher is a practical book for teachers of all levels of experience which deals with the major issues of the profession such as discipline time management and teaching style by showing teachers how other people see them Schools are busy places but spending most of the day in the company of 30 children can still feel rather lonely There is little time for teachers to make meaningful contact with other adults to talk about how they can help one another and share ideas And when these opportunities do arise they are usually in formal circumstances inspections observations appraisals and training days As a result it can be difficult for teachers to develop a fair view of their own practice Many are overly self critical because they rarely get to see that they are not the only ones who struggle with certain students or have difficulties keeping up with the workload Some find it tough because they become too insular they get stuck in the same routines or feel that they have run out of ideas Others become demoralised they feel over criticised undervalued and very misunderstood The Perfect Teacher intends to light up the shadows of the classroom to provide a multi faceted insight into what makes a good teacher taking the perspectives of different education related professionals as its starting point It acts as a critical friend helping teachers to reflect on their strengths whilst offering a range of viewpoints that may throw up new and fresh solutions to old problems The book provides advice from classroom teachers primary and secondary parents pupils headmasters senior teachers social workers special educational needs co ordinators support staff teacher trainers and school governors which will provide readers with a broad and balanced profile of the perfect teacher
