Hucow for the Doctor (Medical Lactation Erotica) Madison Laine,2023-11-08 Brianna wakes up after a night out drinking with more than a hangover her breasts are sore and producing milk Confused and embarrassed she arranges to have a doctor make a house call The doctor tells her she likely had her drink spiked with a drug to induce lactation and the only way to make her feel better is to get the milk out Then he shocks her by offering to help She hasn t had sex in a while and can t help but be excited by the idea Will she let the doctor indulge his lactation fetish and milk her This 6300 word short story contains milking suckling and hot milky sex between a doctor and a patient Excerpt Brianna heard the confusion in his voice She rubbed her forehead and decided it would be best to just tell the truth The whole story of her night out the drinking and what she d found when she woke up that morning came tumbling out in a rush It felt humiliating to make the confession but there was no way around it The quiet that ensued when she finished felt excruciating until it was finally broken You really are certain you re not pregnant Dr Andrew asked I m not Brianna whined and lifted her t shirt to show her honed flat belly I haven t even had sex for well not for a while It was another intimate admission that made her blush and she couldn t bring herself to look at the doctor when he stepped in front of her Then I might know what your problem is he said That did make Brianna look up Really she said Is it bad Yes and no he replied Bad that it happened but if it s what I m thinking then the consequences are not dire Huh Brianna blurted out Have you ever heard of Lactiserv Brianna simply shook her head to answer It s a powerful remedy used when mothers are having problems breastfeeding their child Dr Andrew went on Works quickly to enhance milk production Oh Brianna let out quietly as it dawned on her where things might be going before Dr Andrew went on speaking It should be prescribed by a doctor only for mothers but that doesn t mean it can t get into the hands of others I ve heard of a number of stories in the last six months or so where it was used nefariously by slipping it in a drink Could anyone have done that with you last night But I came home alone she said It s not like I was with anyone who could well you know It s just an educated guess Dr Andrew said I ll need to examine you to be sure so if you could take off your top for me please Brianna watched as he removed his coat to put it down on the coffee table beside his medical bag

There was no keeping the grimace from her face but there was little choice other than to do what he'd asked. She was aware of him looming over her as she grabbed her t-shirt to pull it over her head. What do you think she blurted out. That is milk so you are definitely lactating he replied. I can only assume you have been targeted with Lactiserv. It's the most obvious explanation. So what do I do? Brianna whined. Is there a cure? Well Lactiserv typically acts as a one and done remedy. Dr Andrew said. That is you take it to feed your child and the symptoms wane afterwards. So Brianna let out. You need to get the milk out. Dr Andrew explained. That's the cure. How? Brianna asked. Typically a manual or electric pump would be used for that but the unfinished comment hung between them as Dr Andrew reached out again. The squeeze of Brianna's breasts made milk trickle across her bare skin and he brushed a touch through it before lifting his thumb to his mouth again. She watched wide eyed as he went after the taste and his next comment shocked her more. You could have someone help you get it out.
