we humans can learn from nature's billions of years of productive and efficient evolutionary experience. This field is growing rapidly and everyone from architects to biologists to nano technicians to engineers are paying attention. Results from the simplest tasks creating Velcro to mimic the sticking power of a burr to the more complex like maximizing wind power by arranging farms to imitate schools of fish can make a difference and inspire future technological breakthroughs. Adapt shares the weird and wonderful ways that nature has been working smarter and not harder and how we can too to make billion dollar cross industrial advances in the very near future.
