Mathematical Discourse Kay O'Halloran, 2005-01-01 An examination of mathematical discourse from the perspective of Michael Halliday's social semiotic theory **Mathematical Discourse** Kay L. O'Halloran, 2005 This book examines mathematical discourse from the perspective of Michael Halliday's social semiotic theory In this approach mathematics is conceptualized as a multisemiotic discourse involving language visual images and symbolism The book discusses the evolution of the semiotics of mathematical discourse and then proceeds to examine the grammar of mathematical symbolism the grammar of mathematical visual images intersemiosis between language visual images and symbolism and the subsequent ways in which mathematics orders reality The focus of this investigation is written mathema *Mathematical Discourse* Kay O'Halloran, 2008-11-01 An examination of mathematical discourse from the perspective of Michael Halliday's social semiotic theory *Multimodal Discourse Analysis* Kay O'Halloran, 2004-03-01 This book brings together cutting edge research on multimodal texts and the discourses generated through the interaction of two or more modes of communication for example pictures of language typography and layout body movement and camera movement The contributors collected within this volume use systemic functional linguistics to analyze how meaning is generated within a series of case studies The result is a comprehensive survey of the ways in which enhanced meaning emerges through the interaction of more than one mode of communication Multimodal Discourse Analysis will be useful to researchers interested in the application of systemic functional linguistics to media studies discourse analysis and cognitive linguistics **Future Directions in Intermediality and Multimodality** Signe Kjaer Jensen, Matilda Davidsson, 2025-07-11 This collection brings together leading scholars across disciplines to reflect on the relationship between intermediality and multimodality and future directions for the contemporary mediascape building on a 2022 Linnaeus University lecture series honouring the legacy of Lars Elleström following his untimely death in December 2021 The volume contributes to ongoing dialogues about media and society the challenges and opportunities for academia to engage with developments in the evolving mediascape and interdisciplinary pathways towards engaging with these questions Each chapter features an established figure in such fields as multimodality intermediality semiotics narratology art history and adaptation studies Each essay is prefaced with an introduction by the editors and bookended with a discussion transcribed from the original live presentations A concluding chapter looks ahead to future directions opening new lines of inquiry around the possibilities for intermediality and multimodality research towards continuing to build on Elleström's seminal work in the field This book will be of interest to scholars in multimodality intermediality and media and communication studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under an Attribution Non Commercial No Derivative Licence CC BY NC ND 4.0 license *Multimodal Literacies Across Digital Learning Contexts* Maria Grazia Sindoni, Ilaria Moschini, 2021-11-29 This collection critically considers the question of how learning and teaching should be conceived understood and approached in

light of the changing nature of learning scenarios and new pedagogies in this current age of multimodal digital texts practices and communities The book takes the concept of digital artifacts as being composed of multiple meaning making semiotic resources such as visuals music and design as its point of departure to explore how diverse communities interact with these tools and develop and explore their understanding of digital practices in learning contexts The first section of the volume examines different case studies in which involved participants learn to grapple with the introduction of digital tools for learning in children s early years of schooling The second section extends the focus to secondary and higher education settings as digital learning tools grow more complex as do students parents and teachers interactions with them and the subsequent need for new pedagogies to rethink these multimodal artifacts A final section reflects on the implications of new multimodal tools technologies and pedagogies for teachers such as on teacher training and community building among educators In its in depth look at multimodal approaches to learning as meaning making in a digital world this book will be of interest to students and scholars in multimodality English language teaching digital communication and education

Portraiture and British Gothic Fiction Kamilla Elliott, 2012-10-19 Traditionally kings and rulers were featured on stamps and money the titled and affluent commissioned busts and portraits and criminals and missing persons appeared on wanted posters British writers of the eighteenth and nineteenth centuries however reworked ideas about portraiture to promote the value and agendas of the ordinary middle classes According to Kamilla Elliott our current practices of picture identification driver s licenses passports and so on are rooted in these late eighteenth and early nineteenth century debates Portraiture and British Gothic Fiction examines ways writers such as Horace Walpole Ann Radcliffe Mary Shelley and C R Maturin as well as artists historians politicians and periodical authors dealt with changes in how social identities were understood and valued in British culture specifically who was represented by portraits and how they were represented as they vied for social power Elliott investigates multiple aspects of picture identification its politics epistemologies semiotics and aesthetics and the desires and phobias that it produces Her extensive research not only covers Gothic literature s best known and most studied texts but also engages with more than 100 Gothic works in total expanding knowledge of first wave Gothic fiction as well as opening new windows into familiar work Jerrold E Hogle University of Arizona **Proof and Other Dilemmas** Bonnie Gold, Roger A. Simons, 2008 During the first 75 years of the twentieth century almost all work in the philosophy of mathematics concerned foundational questions In the last quarter of the century philosophers of mathematics began to return to basic questions concerning the philosophy of mathematics such as what is the nature of mathematical knowledge and of mathematical objects and how is mathematics related to science Two new schools of philosophy of mathematics social constructivism and structuralism were added to the four traditional views formalism intuitionism logicism and platonism The advent of the computer led to proofs and the development of mathematics assisted by computer and to questions of the role of the computer in mathematics This book of 16 essays all written specifically for this volume is

the first to explore this range of new developments in a language accessible to mathematicians Approximately half the essays were written by mathematicians and consider questions that philosophers are not yet discussing The other half written by philosophers of mathematics summarize the discussion in that community during the last 35 years In each case a connection is made to issues relevant to the teach of mathematics

Spoken and Written Discourse in Online Interactions Maria Grazia Sindoni, 2014-04-24 Winner of the AIA Book Prize for a research monograph in the field of English Language and Linguistics 2016 Common patterns of interactions are altered in the digital world and new patterns of communication have emerged challenging previous notions of what communication actually is in the contemporary age Online configurations of interaction such as video chats blogging and social networking practices demand profound rethinking of the categories of linguistic analysis given the blurring of traditional distinctions between oral and written discourse in digital texts This volume reconsiders underlying linguistic and semiotic frameworks of analysis of spoken and written discourse in the light of the new paradigms of online communication in keeping with a multimodal corpus linguistics theoretical framework Typical modes of online interaction encompass speech writing gesture movement gaze and social distance This is nothing new but here Sindoni asserts that all these modes are integrated in unprecedented ways enacting new interactional patterns and new systems of interpretation among web users These non verbal modes have been sidelined by mainstream linguistics whereas accounting for the complexity of new genres and making sense of their educational impact is high on this volume s agenda Sindoni analyzes other new phenomena ranging from the intimate sphere i e video chats personal blogs or journals on social networking websites to the public arena i e global scale transmission of information and knowledge in public blogs or media sharing communities shedding light on the rapidly changing global web scenario

Mathematical Discourse Language Symbolism And Visual Images Kay O Halloran: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the fascinating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
