

How to...

Reverse Parallel Park

- 1 Find a suitable space.** This should be a space that you can get your car into without damaging anyone else's vehicle. Ideally the space should be a few meters longer than your car.
- 2 Pull up as close to car 'A' as possible and straighten up so the 2 cars are parallel to each other.** Even if the cars are a different length, line up the back of your car with the back of car 'A'.

- 3 Now stop and turn your steering wheel all the way to the left.** Don't move whilst you are doing this.
- 4 Turn around and look out of the back of the car and start reversing very slowly towards car 'B'.** Do not move your wheel from it's fully turned position.

- 5 Stop reversing when the front right corner of car 'B' is exactly in the middle of your rear windscreen.**

- 6 Whilst stopped, turn your wheel back to the middle position.**

- 7 Continue reversing until your car has literally just passed car 'A'.**

- 8 Stop and turn your wheel fully to the right.** Don't move the car whilst you're doing this.

- 9 Continue reversing slowly towards car 'B' do not move your wheel from it's fully turned position.**

- 10 Once your car is parallel, stop and turn your wheel back to the centre position.**
