

IELTS Academic Writing task 1

Pie Charts: model answer

You should spend about 20 minutes on this task.

The pie charts show the average consumption of food in the world in 2008 compared to two countries; China and India.

Write a report to a university lecturer describing the data.

Write at least 150 words

Diagram and question from <http://www.ielts-writing.info/index.php/academic-writing-task-1/>

The charts illustrate the consumption of four food types in the World compared to China and India for 2008. There are similarities in three of the food group percentages but a marked difference in another.

The largest consumption was in processed foods at approximately two fifths in the World and India and about a third in China. Vegetables and fruit were the second largest group in the World and China at 29% and 32% respectively but in India only the third most used (23%).

The second most common food in India was animal food at more than a quarter (27%). This however, was similar to that of the World (26%) even though it was only the third most popular food globally. Animal food consumption was significantly lower in China than either of the other charts at just 15%.

The main difference was in the usage of nuts and seeds which was 4% in the World but nearly five times larger in China (22%) and three times larger in India (11%).

Overall, the three charts showed similar consumption trends except in the use of nuts and seeds which were significantly higher in India and China.
