

Institutional Handbook of Operating Procedures Policy 9.13A	
Section: Clinical	Responsible: Vice President, Executive Vice President and CEO, Health System
Subject: General Policies	Responsible Entity: Nursing Services

I. Title
Initiating and Monitoring Restraints

II. Policy
The patient protections contained in this policy apply to all hospital patients when the use of restraint becomes necessary, regardless of patient location.

Restraints may only be used in accordance with written modifications to the patient's plan of care. The least restrictive form of restraint that protects the physical safety of the patient, staff, or others should always be used.

Restraints are:

1. Used only to protect the immediate physical safety of the patient, staff, or others;
2. Used only when less restrictive interventions are ineffective;
3. Not used as a means of coercion, discipline, convenience, or staff retaliation; and,
4. Discontinued at the earliest possible time, regardless of the scheduled expiration of the order.

III. Orders

A. The LIP primarily responsible for the patient's ongoing care must order the use of a restraint. However, a qualified nurse may apply a restraint in response to an unanticipated event prior to obtaining a physician order. The attending physician must then be consulted as soon as possible, if he/she did not order the restraint or seclusion.

B. Use of standing or PRN orders is prohibited.

IV. Renewal of orders:

A. **Violent or Self-Destructive (Behavioral) restraint orders** shall be renewed within the following limits:

- 4 hours for adults 18 years of age or older;
- 2 hours for children and adolescents 9 to 17 years of age;
- 1 hour for children under 9 years of age.

B. **Non-behavioral restraint orders** remain in effect until the restraints are removed. At that time, the order is considered to be complete/ discontinued, and a new order must be obtained if it becomes necessary to re-apply the restraints.
