

Turn on the printer and press the 'ink' button. When the printhead has moved to the cartridge removal position unplug the mains cable from the printer.

This allows the printhead to be manually moved.

Remove any cartridges from the machine.

Remove all the small bungs from the bottles. (do not throw these away as you will need these for re-filling the bottles)

Using the long needle attachment on the 10 ml syringe draw any ink out of the centre chamber (through the small hole).

Repeat this on each colour then fit the air filters supplied.
