

PANEL MEMORY RESET

You can reset the Mark 12 back to its default operating state by pressing and holding the Panel 1 button, and then pressing the Grand Piano button. All the options that are generally stored in a panel memory will be restored to the power-on defaults: sounds, auto-accompaniment, and so on. This gives you a convenient way to return the Mark 12 to a known state without having to reset the entire instrument.

USER VARIATION FROM PANEL MEMORY

If a Panel Memory calls up a sound that is not the default or the variation choice for a sound select, the User Variation is assigned to the new sound. In addition, User Variation sounds can now be set using the Up/Down buttons. (See page 16 in your User's Manual for further information).

PEDAL ASSIGNMENTS

Panel memories will now save your choice of pedal assignments. (See page 84 in your User's Manual for further information on *Pedal Assignments*).

See pages 19, 64 and 65 in your User's Manual for further information on *Panel Memories*.

New MIDI Master Page

Pressing Next from the MIDI/Preferences page will display a menu which allows you to see the program assignments for each of the 16 MIDI channels. This can be very helpful if you're working with a MIDI connection to the Mark 12 from a computer or another keyboard. Use the Up/Down buttons to see the different channels and their program assignments. You can change the program on a given channel by pressing the middle soft button and using the Up/Down buttons to scroll among the programs, or by pressing the associated sound category button.

Metronome Volume Setting

The volume of the metronome can now be set using the bottom slider in the Auto-Accompaniment section. Simply press and hold the Metronome button, and then slide the slider. You'll hear the metronome change in volume. Release the button when the metronome setting is right to your ear.
