

Lesson Description

Lesson Title: The Magic School Bus Inside the Earth

Length: 75-minute block

Grade: 4

Lesson Description: For this lesson, we will start by reading the story The Magic School Bus Inside the Earth. Students will be introduced to geology by examining rocks and minerals, noting the characteristics and properties of them and learning how they were formed. As a class, we will discuss different types of rocks and how they differ, and where we would find them. Students would have been tasked the day before to bring in a few rocks they found around their community. Students will then be tasked with completing a worksheet where they will discuss their rock, its characteristics and properties, where they found it and how we believe it was made. To end this lesson students will be asked to bring their worksheets to the carpet to share (or for the teacher to share depending on the student). We will also discuss mining and manufacturing and how they relate to social studies.
