Visual Cultures of Secrecy in Early Modern Europe

Timothy McCall,Sean

Roberts,2013-04-01 Secrets in all their variety permeated early modern Europe from the whispers of ambassadors at court to the emphatically publicized books of home remedies that flew from presses and booksellers shops This interdisciplinary volume draws on approaches from art history and cultural studies to investigate the manifestations of secrecy in printed books and drawings staircases and narrative paintings ecclesiastical furnishings and engravers tools Topics include how patrons of art and architecture deployed secrets to construct meanings and distinguish audiences and how artists and patrons manipulated the content and display of the subject matter of artworks to create an aura of exclusive access and

privilege Essays examine the ways in which popes and princes skillfully deployed secrets in works of art to maximize social control and how artists printers and folk healers promoted their wares through the impression of valuable mysterious knowledge The authors contributing to the volume represent both established authorities in their field as well as emerging voices This volume will have wide appeal for historians art historians and literary scholars introducing readers to a fascinating and often unexplored component of early modern culture

Metropolis Alexander M. Martin,2013-03-28 Imperial Russia is was said had two capital cities because it had two identities St Petersburg was Russia s window to Europe whereas Moscow preserved the nation s proud historical traditions Enlightened Metropolis challenges this myth by exploring how the tsarist regime actually tried to turn Moscow into a bridgehead of Europe in the heartland of Russia Moscow in the eighteenth century was widely scorned as backward and Asiatic The tsars thought it a benighted place that endangered their state s internal security and their effort to make Russia European Beginning with Catherine the Great they sought to construct a new Moscow with European buildings and institutions a Westernized middle estate and a new cultural image as an enlightened metropolis Drawing on the methodologies of urban social institutional cultural and intellectual history Enlightened Metropolis asks How was the urban environment buildings institutions streets smells transformed in the nine decades from Catherine s accession to the death of Nicholas I How were the lives of the inhabitants changed Did a middle estate come into being How similar was Moscow s modernization to that of Western cities and how was it affected by the disastrous occupation by Napoleon Lastly how were Moscow and its people imagined by writers artists and social commentators in Russia and the West from the Enlightenment to the mid nineteenth century

Monthly Catalogue, United States Public Documents ,1986 Maps of War Jeremy Black,2018-10-18 A magnificent visual survey of how conflict was recorded and planned using maps produced at the time to reveal how warfare and its documentation has changed through the centuries There is little documented mapping of conflict prior to the Renaissance period but from the 17th century onwards military commanders and strategists began to document the wars in which they were involved and later to use mapping to actually plan the progress of a conflict Using contemporary maps this sumptuous new volume covers the history of the mapping of war on land and shows the way in which maps provide a guide to the history of war Content includes The beginnings of military mapping up to 1600 including the impact of printing and the introduction of gunpowder The seventeenth century The focus is on maps to illustrate war rather than as a planning tool and the chapter considers the particular significance of maps of fortifications The eighteenth century The growing need for maps on a world scale reflects the spread of European power and of transoceanic conflict between Europeans This chapter focuses in particular on the American War of Independence The nineteenth century Key developments included contouring and the creation of military surveying Subjects include the Napoleonic Wars and the American Civil War The

twentieth century including extended features on the First and Second World Wars including maps showing trench warfare and aerial reconnaissance Much of the chapter focuses on the period from 1945 to the present day including special sections on the Vietnam War and the Gulf Wars
