Handbook for Defining and Setting Up a Food Security Information and Early Warning System (FSIEWS). Food and Agriculture Organization of the United Nations, 2001-01-01 The World Food Summit held in Rome in November 1996 recognised the urgent need for better information As a result the FIVIMS Food Insecurity and Vulnerability Information and Mapping System initiative was launched as a co-operative venture to assist countries and the international community to

identify the who where and why of food insecurity Even before the Summit many countries had established approaches for this purpose based on multidisciplinary networks at national and local levels One of these approaches developed first in French speaking Africa is the FSIEWS method Food Security Information and Early Warning System proposed in this handbook as one of the tools available to those engaged in the fight against hunger This contribution to the FIVIMS initiative is addressed to the national technical officers at central and decentralised level as well as to their collaborators from the technical assistance community
