ICT for Smart Water Systems: Measurements and Data Science Andrea Scozzari, Steve Mounce, Dawei Han, Francesco Soldovieri, Dimitri Solomatine, 2020-11-28 Today Information and Communication Technologies ICT have a pervasive presence in almost every aspect of the management of water. There is no question that the collection of big data from sensing and the insights gained by smart analytics can bring massive benefits. This book focuses on new perspectives for the monitoring, assessment and control of water systems based on tools and concepts originating from the ICT sector. It presents a portrait of up to date sensing techniques for water and introduces concepts and implications with the analysis of the acquired data. Particular attention is given to the advancements in developing novel devices and data processing approaches. The chapters guide the reader through multiple disciplinary contexts without aiming to be exhaustive but with the effort to present relevant topics in such a highly multi disciplinary framework. This book will be of interest to advanced students, researchers and stakeholders at various levels.
