and strategies for boosting performance and scores in key areas      The Un Convention on the Rights of Persons with Disabilities Great Britain. Parliament. Joint Committee on Human Rights, 2009 The UN Convention on the Rights of Persons with Disabilities builds on existing human rights treaties including the International Covenant on Civil and Political Rights and the International Covenant on Economic Social and Cultural Rights The UN Handbook for Parliamentarians on the Convention stresses that it is not intended to create new rights but clarifies the obligations and legal duties of States to respect and ensure the equal enjoyment of all human rights by all persons with disabilities Its purpose is to Promote protect and ensure the full enjoyment of all human rights and fundamental freedoms by all persons with disabilities and to promote respect for their inherent dignity The UK was among the first countries to sign the Convention on 30 March 2007 The findings of our recent inquiry on the rights of adults with learning disabilities showed that although UK law and policy on the treatment of adults with learning disabilities takes a human rights based approach the day to day experiences of people with learning disabilities are not so positive Ratification will send a strong signal to all people with disabilities in the UK and abroad that the Government takes equality and the protection of their human rights seriously The Government first publicly stated that reservations to the Convention were being considered in its response to our Report on the treatment of adults with learning disabilities in May 2008 more than a year after it signed the Convention Despite the Committee s call for a full explanation of the government s views on the compatibility of domestic law with the Convention the were then provided with little detail on the reservations being considered or the Government s approach to the process The Committee considers that progress towards ratification of the Convention by the UK has so far lacked transparency and has unfortunately alienated disabled people and their organisations This is unacceptable in the light of the clear Convention commitment which the Government intends to make to the involvement of disabled people in the development of policies and laws which affect them This approach undermines the previous role that the UK Government has played in championing equality for disabled people and their leading role in negotiating the terms of the UNCRPD      **Alien Agency** Chris Salter, 2015-02-13 An investigation into what happens in creative practice when the materials of art and research behave and perform in ways beyond the creators intentions In Alien Agency Chris Salter tells three stories of art in the making Salter examines three works in which the materials of art the stuff of the world behave and perform in ways beyond the creator s intent becoming unknown surprising alien Studying these works all three deeply embroiled in and enabled by science and technology allows him to focus on practice through the experiential and affective elements of creation Drawing on extensive ethnographic observation and on his own experience as an artist Salter investigates how researcher creators organize the conditions for these experimental performative assemblages assemblages that sidestep dichotomies between subjects and objects human and nonhuman mind and body knowing and experiencing Salter reports on the sound artists Bruce Odland and Sam Auinger O A and their efforts to capture and then project unnoticed urban sounds tracks the multi year project TEMA Tissue Engineered

Muscle Actuators at the art research lab SymbioticA and its construction of a hybrid semi living machine from specially grown mouse muscle cells and describes a research creation project which he himself initiated that uses light vibration sound smell and other sensory stimuli to enable audiences to experience other cultures ways of sensing Combining theory diary history and ethnography Salter also explores a broader question How do new things emerge into the world and what do they do

**How We Can Save Sports** Ken Reed, 2023-02-08 Many sports fans are conflicted they may love the games the players and their communities but they are often alarmed by issues such as academic corruption athlete health and the overarching emphasis on winning and profit In *How We Can Save Sports A Game Plan with a New Introduction* Ken Reed argues that much of our sports culture is broken driven by ego and greed Written to inform and empower those who care deeply about the impact of sports on individuals and society as a whole Reed introduces readers to the most pressing problems in sports and shows how they largely derive from the mentalities of profit at all costs and win at all costs Chapters dig into issues such as concussions overzealous adults in youth sports the disappearance of PE from many school curriculums the focus on profit in college athletics discrimination in sports and more With a new introduction to bring this perennial topic up to the present and featuring helpful resources and practical solutions for readers interested in change at all levels *How We Can Save Sports* is an invaluable tool for addressing the many challenges in sports today
