 Peter Göstl, 2019-10-01 This study contributes to an existing and growing body of literature in the field of management accounting and control concerned with implications from increased uncertainty on MCS design and use It is found that the choice of MCS reflects the firm's risk profile and that firms that choose MCS design and use better suited to their risk profile perform better than others Using data from a survey of 362 Chief Executive Officers this study yields a model of fit that enables the stimulation of selective improvements and helps to achieve a competitive advantage **Performance Measurement and Management Control**
 Marc J. Epstein, Frank H. M. Verbeeten, Sally K. Widener, 2018-09-07 This volume contains exemplary papers that were presented at the 2017 Conference on Performance Measurement and Management Control in Nice France by researchers in the field from North America South America Africa Europe and Asia **Enterprise Risk Management**
 Mirna Jabbour, Jason Crawford, 2024-12-02 ERM is considered a dynamic capability that is critical to companies success from strategic and performance perspectives and is increasingly implemented in response to growing pressure from external stakeholders to enact and add legitimacy to existing management control systems However implementing ERM is a challenging process where success is dependent on balancing technical and social factors This book explores the challenges of implementing ERM from technical cognitive and social perspectives to enhance the organisation's capacity to generate and integrate information and knowledge about risk and uncertainty In existing publications ERM implementation is mainly viewed from technical or educational perspectives and treated as formal technical linear processes This book takes a different stance by recognising that implementation depends on formal and informal mechanisms that require a balanced combination of technical and social approaches It changes the paradigm to demonstrate that the implementation of ERM is not a linear process that is similar across industries and organisations but relies on multiple dependencies such as leadership corporate governance and the culture of the organisation This book will be a valuable resource for scholars as well as upper level students across disciplines related to risk management including accounting and finance business and management leadership and organisational studies **Vertical Coordination Via Contract Farming**
