**Half In, Half Out** Andrew Adonis, 2018-06-21 The decades since the end of the Second World War have seen massive change sweep across Britain's social cultural and political landscape Yet throughout this period one thing has remained constant and unchanging the thorny question of our relationship with Europe Europe and Britain's place in or out of it has always been a hugely divisive factor on either side of the political spectrum creating warring camps in both the Labour and Conservative parties Famous Europhiles to put their heads above the parapets over the years have included Conservatives Ted Heath and David Cameron as well as Tony Blair for Labour while leading Europhobes count among their number the former Conservative Prime Ministers Anthony Eden and Margaret Thatcher Born out of a series of Oxford University lectures devised by the former director of the Number 10 Policy Unit Andrew Adonis Half in Half Out presents a comprehensive and enlightening look at Britain's Prime Ministers of the past seven decades and explores their often hugely differing attitudes towards our neighbours on the other side of the Channel Starting with the premiership of Sir Winston Churchill and ending with Theresa May the book examines in fascinating and forensic detail the crucial relationships between our leaders and Europe With each chapter written by a prominent political figure including Sir Nicholas Soames David Owen and Rachel Reeves the book provides some hugely revealing portraits of Britain's former leaders shining a light on their sometimes warm and at other times downright hostile attitudes towards Europe

**Complications in Vascular and Endovascular Surgery** Jonathan J Earnshaw, Michael Wyatt, 2012-01-01 The aim of this book is to help clinicians to reduce the risk of complications after vascular and endovascular surgery Whilst it is a surgical truism that the surgeon who does the most operations has the most complications an acknowledgement of the fact that all vascular and endovascular procedures are potentially hazardous and some extremely so some surgeons seem to have more complications than others This book is for all surgeons and radiologists who accept the challenge continually to improve their results Each chapter is authored by an experienced endovascular specialist who will have witnessed firsthand the perils and pitfalls of vascular procedures They have seen all the complications and even occasionally made errors of judgement The chapters are full of information to help the reader avoid similar hazards in future We live in a world of high patient expectation where complications are seen as someone's fault Clinicians are familiar with innovations such as outcomes audit and assessment procedural governance and quality
