

## Getting Started

### The Access Window

- **Menu Bar** - contains all tools for use with Access 2003.
- **Database Window** - contains shortcuts for standard Access routines and tools.
- **Database Window** - allows you to work with all objects in the database.
- **Type a Question in Help Box** - provides quick access to help when you have a question.
- **Task Pane** - displays tasks according to the selected task category.

*Note:* To hide or display a window, select **Windows** from the **File** menu and select the button from the resulting menu.

### Using the Task Pane

The task pane displays commonly used dialog boxes. For example, when you select **New** from the **File** menu to create a new database, the **New File** pane will appear in the task pane.

- To change the task category, click the down arrow on the task pane, and select a category from the resulting menu.
- To navigate through the task pane, click the **Back** and **Forward** buttons, or click the **Home** button to return to the **Getting Started** task pane.
- To open or close the task pane, select **Task Pane** from the **View** menu, or press **Ctrl + F6**. To quickly close the task pane, click the **Close** button in the upper-right corner of the pane.

### Using the Getting Started Task Pane

The **Getting Started** task pane appears when you open Access 2003. It allows you to learn and search Microsoft Office Online, open recent Access files, and create a new file.

### Using Smart Tags

Smart Tags enable you to perform actions that you would normally need to open other buttons to do. For example, when Access automatically creates a minimized word, the **AutoCorrect Options** smart tag button will appear. Click the button to select from a list of options, such as undoing the correction or disabling AutoCorrect options.

### Using the Database Wizard

The Database Wizard helps you create a database. You can set up the required tables, forms, and reports for the database in one operation.

1. Select **New** from the **File** menu, press **Ctrl + N**, or click the **New** button on the Database toolbar.
2. In the **New File** task pane, under **Templates**, click the **File New** computer shortcut.
3. Click on the **Databases** tab.
4. Select the type of database you want to create.
5. Click the **OK** button to display the **File New Database** dialog box.
6. Specify a name and location for the database.
7. Click the **Create** button.
8. Follow the instructions provided by the Wizard to create the database.
9. Click the **Finish** button when you are finished.

### Opening an Existing Database

1. Select **Open** from the **File** menu, press **Ctrl + O**, or click the **Open** button on the Database toolbar.
2. Create and select the database you want to open.
3. One of the following:
  - To open the database for shared access in a multiuser environment, click the **Open** button.
  - To open the database for read-only access so that you can view it but cannot edit it, click the arrow on the **Open** button and select **Open Read-Only** from the resulting menu.
  - To open the database with exclusive access, click the arrow on the **Open** button, and select **Open Exclusive** from the resulting menu.
  - To open the database for read-only access and allow present others from opening it, click the arrow on the **Open** button and select **Open Exclusive Read-Only** from the resulting menu.

### Opening a Recently Used Database

To open a recently used database, select the file name of the database from the buttons of the **File** menu. If recently used files are not displayed, select **Options** from the **Tools** menu and click on the **General** tab. Check the **Recently used file list** box and click the **OK** button.

### Opening a Sample Database or Project

1. Select **Sample Database** from the **File** menu.
2. Select the database or project referenced to open from the resulting menu.
3. If prompted, click the **Yes** button to install the sample data.

### Backing Up a Database

1. Save and close all objects in the database.
2. Select **Back Up Database** from the **File** menu.
3. Specify a location for the backup copy.
4. Enter a name for the backup copy in the **File name** box.
5. Click the **Save** button.

*Note:* If you are using user-level security (such as when you connect an administrator user group specific permissions to users), you should also create a backup of the **workgroup information file**. Other workgroup information files in a file that Access needs all settings that contain user information, such as account names, passwords, and groups.

Completely updated to cover the latest features and enhancements in the new version of Quicken. Published in conjunction with the release of Quicken X.      **Physics For Dummies** Steven

Holzner, 2006-02-10 Does just thinking about the laws of motion make your head spin? Does studying electricity short your circuits? Do the complexities of thermodynamics cool your enthusiasm? Thanks to this book, you don't have to be Einstein to understand physics. As you read about Newton's Laws, Kepler's Laws, Hooke's Law, Ohm's Law, and others, you'll appreciate the For Dummies law: The easier we make it, the faster people understand it, and the more they enjoy it. Whether you're taking a class, helping kids with homework, or trying to find out how the world works, this book helps you understand basic physics. It covers Measurements, units, and significant figures; Forces, such as displacement, speed, and acceleration; Vectors, and physics notation; Motion, energy, and waves; sound; light; wave-particle; Solids, liquids, and gases; Thermodynamics; Electromagnetism; Relativity; Atomic and nuclear structures. Steven Holzner, Ph.D., earned his B.S. at MIT and his Ph.D. at Cornell, where he taught Physics 101 and 102 for over 10 years. He livens things up with cool physics facts, real-world examples, and simple experiments that will heighten your enthusiasm for physics and science. The book ends with some out-of-this-world physics that will set your mind in motion: The possibility of wormholes in space; The Big Bang; How the gravitational pull of black holes is too strong for even light to escape. May the Force be with you.      **Personal Finance For Dummies** Eric
