Administration**

Pharmaceuticals (Therapeutic Medications)
Do Not Issue - Do Not Fly

The information in this section is provided to advise Aviation Medical Examiners (AMEs) about two medication issues:

- Medications for which they should not issue (DME) applicants without clearance from the Federal Aviation Administration (FAA), AND
- Medications for which they should advise patients to not fly (DMF) and provide additional safety information to the applicant.

The lists of medications in this section are not meant to be all-inclusive or comprehensive, but rather address the most common concerns.

For any medication, the ASME should ascertain for what condition the medication is being used, how long, frequency, and any side effects of the medication. The safety impact of the underlying condition should also be considered. If there are any questions, please call the Regional Flight Surgeon's (RFS) office or the Aerospace Medicine Certification Division: ramc@nasa.gov.

Do-Not-Issue. AMEs should not issue swimmer medical certificates to applicants who are using these classes of medications or medications
