## Abstract

The analysis of the spatial changes of the craniofacial structures for orthodontic treatment or surgery always relies on the superimposition of cephalometric tracings taken at different times. The errors in the manual measurement of superimposition may be arisen from the bad cephalogram quality, the facial growth, and the orthodontist's experience. In this paper, the computerized superimposition is developed for alleviating the problems mentioned above. This procedure contains three parts: 1. To digitize and calibrate the cephalogram through the CCD camera; 2. To extract the feature curves for the cranial base using the best oriental edge detector and Hough transform, and for the mandible using the Laplacian of Gaussian and grouping; and 3. To automate the superimposition based on the clinically available procedure and finally to display the associated results. The complete procedure typically takes 5 to 6 minutes of computation. The precision for the cranial base superimposition is about 0.312cm, and the mandible about 0.605cm. The difference between the superimpositions of the proposed system and the manual measurement is about 0.95cm in the cranial base, 0.98cm in the maxillary, and 1.26cm in the mandible.

## Introduction

Cephalogram usually plays the key role in cephalometric diagnosis and superimposition. In general, orthodontists manually locate the landmarks and trace their associated feature curves and lines on the tracing paper (Fig. 1(b)) attached on the cephalogram (Fig. 1(a)). Landmarks on the cephalogram are defined according to the anatomical features [26] for clinical reference. The associated data for the cephalometric analysis is then measured and computed. This manual procedure is very tedious and time-consuming. Moreover, the accuracy of measurements is heavily dependent on the factors such as the film quality and orthodontist's experience.

Spatial changes of craniofacial structures are the basic information for the orthodontic treatment and surgery. They are measured by superimposition of cephalometric tracings taken at pre- and post-treatment, or pre- and post-surgery. It usually takes about 5 to 10 minutes to plot a tracing paper, and 20 to 30 minutes for superimposition in cephalometrics. From the cephalometric analysis, the orthodontists can understand the general view of growth changes and the effect of treatment. Superimposition is a procedure to match two cephalograms with the same features, relative landmarks, or anatomical

structures. Some difficulties may be encountered in the cephalometric superimposition, especially for the growing young patients. In the growing skulls, the various bones may move apart from each other at different rates. The landmarks adjacent to the growth locations will then move farther from the growth sites. Therefore, same feature curves and anatomical structures may not be easily found and matched. The parts for cephalometric superimposition are generally divided into three areas as follows.

### Cranial base superimposition

To evaluate facial changes, the anatomic structures for registration must be relatively stable over the time of orthodontic treatment or surgery. The cranial base region grows rapidly in early postnatal life and reaches 90% of its final size by 4 to 5 years of age [1]. So the cranial area is considered as a satisfactory reference for the cephalometric registration. For examples, there are two methods of superimposition on the cranial base [2]. One is the superimposition on the best fit of the anterior cranial base anatomy as shown in Fig. 2(a), and the other is superimposition on Sella-nasion(SN).

### Maxillary base superimposition

Maxillary superimposition is done along the palatal plane from ANS to PNS registered at ANS [3]. It may also superimpose on the palatal plane but register at the pterygomandibular fissure. The method of the best fit on the

## **Feature Curves Based Cephalometric Superimposition Journal Of Introduction**

In today's digital age, the availability of Feature Curves Based Cephalometric Superimposition Journal Of books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Feature Curves Based Cephalometric Superimposition Journal Of books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Feature Curves Based Cephalometric Superimposition Journal Of books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Feature Curves Based Cephalometric Superimposition Journal Of versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Feature Curves Based Cephalometric Superimposition Journal Of books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Feature Curves Based Cephalometric Superimposition Journal Of books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Feature Curves Based Cephalometric Superimposition Journal Of books and manuals is Open Library. Open Library is an

initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Feature Curves Based Cephalometric Superimposition Journal Of books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Feature Curves Based Cephalometric Superimposition Journal Of books and manuals for download and embark on your journey of knowledge?
