Hewitt, 1998 Conceptual Physics Tenth Edition helps readers connect physics to their everyday experiences and the world around them with additional help on solving more mathematical problems. Included in the package is the workbook: Mechanics, Properties of Matter, Heat, Sound, Electricity and Magnetism, Light, Atomic and Nuclear Physics, Relativity. For all readers interested in conceptual physics. *Tools for Teaching Conceptual Understanding, Elementary* Julie Stern, Nathalie Lauriault, Krista Ferraro, 2017-09-16 Harness natural curiosity for conceptual understanding. Young children are naturally curious, asking deep questions about complex concepts. This tendency is a talent that can be nurtured so that children grow to be deep thinkers and innovators later in life. However, in our complex world, it is impossible to teach students everything they need to know. Pushing more factual content ignores what we know about how children learn and endangers their love of learning. Concept based teaching helps young learners uncover conceptual relationships in a way that is developmentally appropriate. Readers of this guide will learn why conceptual learning is a natural fit for children. Strategies for introducing conceptual learning. Instructional strategies to help students uncover and transfer concepts. How to write lessons, assess understanding, and differentiate in a concept based classroom. How concept based teaching aligns with best practices and initiatives. Written for educators who strive to cultivate conceptual understanding while honoring students' innate curiosity, this is a must-have road map for implementing concept based teaching in elementary classrooms. This book provides the research and resources educators need to help students take ownership of their learning. It fosters students' curiosity about their environment and it allows them to explore and become life-long learners. Ellen Asregadoo, Fifth Grade Teacher, Public School 190 Brooklyn, NY. This is an important book for all teachers. We need to be honoring our students as
