

## How to Calculate APS Score?

Calculating your APS score might not be as intimidating as it seems. Here is a breakdown of how you can determine your APS score.

- The total number you get in each subject ranges from 0 to 100.
- Each mark on the point score ranges from 1 to 7 (1 being lowest and 7 being highest. For instance, if you have received 45% in English, your marks on the point score will become 3.
- The total APS score is calculated by adding all the points (obtained) in your six compulsory Matric subjects. Please note that Life Orientation is not included in your APS score.

Now that you know how to calculate the APS score, let us understand the point allocation and what each mark signifies on the point scale.

<b>Matric Subject Symbols</b>	<b>Obtained Marks in Matric</b>	<b>APS Score</b>
A Symbol	80 to 100%	7
B Symbol	70 to 79%	6
C Symbol	60 to 69%	5
D Symbol	50 to 59%	4
E Symbol	40 to 49%	3
F Symbol	30 to 39%	2
G Symbol	0 to 29%	1

Now, let us demonstrate the APS score calculation through an example. Callo obtained the following results for his Matric NSC final exams and wants to derive his APS score. Here is how the calculation goes.

Before the Case checklists of all necessary equipment for each surgical procedure. Preferred Technique section provides algorithms explaining each author's choice of preferred procedure. Full-color operative photos, tables, x-rays, diagrams and more than 500 line drawings of surgical procedures. *HELP: A Dynamic Hospital Information System* Gilad J. Kuperman, Reed M. Gardner, T. Allan Pryor, 2013-03-12. This monograph series is intended to

provide medical information scientists health care administrators health care providers and computer science professionals with successful examples and experiences of computer applications in health care settings Through the exposition of these computer applications we attempt to show what is effective and efficient and hopefully provide some guidance on the acquisition or design of information systems so that costly mistakes can be avoided The health care industry is currently being pushed and pulled from all directions from the clinical side to increase quality of care from the business side to improve financial stability from the legal and regulatory sides to provide more detailed documentation and in a university environment to provide more data for research and improved opportunities for education Medical information systems sit in the middle of all these demands They are not only asked to provide more better and more timely information but also to interact with and monitor the process of health care itself by providing clinical reminders warnings about adverse drug interactions alerts to questionable treatment alarms for security breaches mail messages workload schedules etc Clearly medical information systems are functionally very rich and demand quick response time and a high level of security They can be classified as very complex systems and from a developer's perspective as risky systems

*34th European Symposium on Computer Aided Process Engineering /15th International Symposium on Process Systems Engineering* Flavio Manenti,G.V. Rex Reklaitis,2024-06-27 The 34th European Symposium on Computer Aided Process Engineering 15th International Symposium on Process Systems Engineering contains the papers presented at the 34th European Symposium on Computer Aided Process Engineering 15th International Symposium on Process Systems Engineering joint event It is a valuable resource for chemical engineers chemical process engineers researchers in industry and academia students and consultants for chemical industries Presents findings and discussions from the 34th European Symposium on Computer Aided Process Engineering 15th International Symposium on Process Systems Engineering joint event

**Acute Care Surgery** L. D. Britt,Phillip S. Barie,Andrew B. Peitzman,Gregory Jurkovich,2012-06-04 Acute Care Surgery is a comprehensive textbook covering the related fields of trauma critical care and emergency general surgery The full spectrum of Acute Care Surgery is expertly addressed with each chapter highlighting cutting edge advances in the field and underscoring state of the art management paradigms In an effort to create the most definitive reference on Acute Care Surgery an evidence based approach is emphasized for all content included Also notable controversies are discussed in detail often accompanied by data driven resolutions
