The Life Swap Barbara Hannay, 2023-08-08 Tess is feeling burnt out from her uninspiring job and her busy city lifestyle Even her personal relationships make her feel as if she's simply drifting through life rather than living it to the full Having tragically lost her mother a few years earlier she knows she owes it to herself to make so much more of the precious opportunities life offers Her godmother Luna who leads a very simple existence in a rustic cottage in the North Queensland rainforest is also at something of a crossroads Keen to expand her jewellery making business she needs the new connections that a bustling city offers When she suggests to Tess that the two of them might swap homes for an extended period it seems the perfect solution Tess soon finds herself in a new world adapting to life off grid dodging cassowaries working in a charity bookstore and falling for the gorgeous but unavailable guy next door Meanwhile Luna gets far more than she bargained for with police on her doorstep old lovers turning up out of the blue and the possibility of having her biggest secret exposed Are they about to discover that taking great risks can bring even greater rewards A moving and heart warming story by the bestselling Australian author of *The Garden of Hopes and Dreams* and *The Happiest Little Town*

Cooperatively Interacting Vehicles Christoph Stiller, Matthias Althoff, Christoph Burger, Barbara Deml, Lutz Eckstein, Frank Flemisch, 2024-08-02 This open access book explores the recent developments automated driving and Car2x communications are opening up attractive opportunities future mobility The DFG priority program Cooperatively Interacting Automobiles has focused on the scientific foundations for communication based automated cooperativity in traffic Communication among traffic participants allows for safe and convenient traffic that will emerge in swarm like flow This book investigates requirements for a cooperative transport system motion generation that is safe and effective and yields social acceptance by

all road users as well as appropriate system architectures and robust cooperative cognition For many years traffic will not be fully automated but automated vehicles share their space with manually driven vehicles two wheelers pedestrians and others Such a mixed traffic scenario exhibits numerous facets of potential cooperation Automated vehicles must understand basic principles of human interaction in traffic situations Methods for the anticipation of human movement as well as methods for generating behavior that can be anticipated by others are required Explicit maneuver coordination among automated vehicles using Car2X communications allows generation of safe trajectories within milliseconds even in safety critical situations in which drivers are unable to communicate and react whereas today s vehicles delete their information after passing through a situation cooperatively interacting automobiles should aggregate their knowledge in a collective data and information base and make it available to subsequent traffic
