**Winning Autocross Techniques** Ross Bentley, 2009-01-10 A champion racer and pro driving coach's secrets for success in this popular skill driven motorsport includes color photos. With its solo set up, more subdued speeds and endlessly varying events and courses, autocross is the easiest, safest and least expensive way to get into motorsports. Anyone with a helmet and a car can do it. Of course, it doesn't hurt to have some driving skills, which is where this book comes in. As a veteran racer and professional driving coach, Ross Bentley knows what it takes to compete and win, and he gives you the benefit of that knowledge in this book. The first in the Speed Secrets series to address a specific form of racing, this volume focuses on the skills critical to autocross success: car handling and driver skill at high speeds on unique courses. Though slower than other motorsports in absolute terms, autocross, with its high number of turns per minute, can challenge even the most expert driver. Adapting his time-proven method of teaching drivers how to go fast, Bentley clearly details the steps and techniques that help autocross drivers maintain control and dominate a course at speed. Though specific to autocross and essential to mastering its particular challenges, his advice and instruction in this book will prove invaluable to drivers who go on to road racing as well.

**Kar-Kraft** Charlie Henry, 2017-06-15 The story of Kar Kraft began as did many others in the automotive industry with an axe to grind. In 1963, Ford was seriously interested in purchasing Ferrari. Ferrari was a legendary brand with considerable success in racing, and Ford saw the acquisition as a great way to be instantly successful in the racing arena. When Enzo Ferrari realized that Ford would not give him complete control of the racing program, he backed out of the deal late in the process. Ford had spent

millions in vetting and audits which then set in motion a vengeful response against Ferrari The result was the unthinkable Ford beat Ferrari at Le Mans Ford wanted to become competitive quickly but it did not have the race history or resources in house To remedy the situation Ford searched the U K for an independent company to help accelerate its race car development It first settled on Lola Cars and set up Ford Advanced Vehicles Later Ford brought its LeMans effort to the U S and the Kar Kraft relationship was established Although Kar Kraft was technically an independent company it really only had one customer Ford Special Vehicles Kar Kraft s story doesn t begin and end with the GT 40 that took the win away from Ferrari at Le Mans Ford expanded upon the program and organized an all out assault on racing in general Cars were prepared for Trans Am NASCAR NHRA and Can Am competition Street versions of the Boss 429 were assembled under its roof And fabled prototypes including the LID Mustang Boss 302 Maverick and Mach 2C were all assembled in Ford s contracted race shop And then out of the blue its doors closed for good on a cold day in 1970 History tells us that Ford won Le Mans the Daytona 500 and the Trans Am championship But it doesn t tell us how this was accomplished Author Charlie Henry a former Kar Kraft employee has enlisted the help of many of his former co workers to bring you the very first book ever published on Ford s all encompassing special projects facility Kar Kraft p p1 margin 0 0px 0 0px 0 0px font 12 0px
