Nikolov, 2006-01-21 The 13th International Symposium on Graph Drawing GD 2005 was held in Limerick Ireland September 12 14 2005 One hundred and fifteen participants from 19 countries attended GD 2005 In response to the call for papers the Program Committee received 101 submissions each detailing original research or a system demonstration Each submission was reviewed by at least three

Program Committee members each referee's comments were returned to the authors. Following extensive discussions the committee accepted 38 long papers, 3 short papers and 3 long system demos, each of which were presented during one of the conference's 12 sessions. Eight posters were also accepted and were on display throughout the conference. Two invited speakers, Kurt Mehlhorn and George Robertson, gave fascinating talks during the conference. Prof. Mehlhorn spoke on the use of minimum cycle bases for reconstructing surfaces, while Dr. Robertson gave a perspective past and present on the visualization of hierarchies. As is now traditional, a graph drawing contest was held during the conference. The accompanying report written by Stephen Kobourov details this year's contest. This year, a day-long workshop organized by Seok Hee Hong and Dorothea Wagner was held in conjunction with the conference. A report on the Workshop on Network Analysis and Visualization written by Seok Hee Hong is included in the proceedings.
