The Expert versus the Object Ronald D. Spencer,2004-04-01 The authenticity of visual art has always commanded the attention of experts dealers collectors and the

art minded public Is it real or original is a way of asking what am I buying What do I own What am I looking at And today more sophisticated questions are being asked How is authenticity determined and what weight does this determination have in court This book of essays proposes to answer those questions Three lines of inquiry are basic to determining authenticity a connoisseur s evaluation historical documentation or provenance and scientific testing A connoisseur is an expert who evaluates the rightness of a work based on much careful scrutiny of many works by an artist and familiarity with that artist s usual manner of working with materials In determining provenance a researcher traces the physical object from the artist through a chain of ownership to the present owner simple enough in concept though it assumes that the documentation is not faked or inaccurate The goal is to ensure that the object is the same one that left the artist s hand Scientific testing although sometimes useful is often longer on promise than result Dating paint or wood samples for instance can show that a painting was made in Rembrandt s lifetime but it cannot prove that it is by Rembrandt s hand If expert opinion is divided and large sums of money are involved a dispute over authenticity may end up in a court of law where evaluation of expert opinion evidence can be problematic The essays in this book clarify the nature of the methods outlined above and explain based on case law the present status of authentication issues in court Contributors include experts from Christie s London Sotheby s New York and the former director of the Frick Collection as well as leading art historians and art dealers an art conservator a forensic graphologist a philanthropist and collector and a specialist in French art law Their collective knowledge on issues of authenticity will be invaluable for anyone interested in the world of visual art
