Self-Determination, Dignity and End-of-Life Care

Stefania Negri, 2012-02-03. This volume gathers the contributions of leading researchers in the fields of bioethics, medical law and human rights. By providing an interdisciplinary reading of advance directives regulation against the background of European and International law, this book aims to offer new insights into the most controversial legal issues surrounding the theme of dignity and autonomy at the end of life. Cross-cultural perspectives from Europe, the Americas, Australia and China offer a comparative analysis of legal approaches to end-of-life decision making and care, including the hotly debated issues of euthanasia and assisted suicide, also giving an account of recent developments in domestic legislation and jurisprudence. Special focus is placed on the Italian legal system and its ongoing discussion on advance directives regulation.

Fate, Providence and Moral Responsibility in Ancient, Medieval and Early Modern Thought Pieter d'Hoeine, Gerd Van Riel, 2014-03-05. Essays on key moments in the intellectual history of the West. This book forms a major contribution to the discussion on fate, providence and moral responsibility in Antiquity, the Middle Ages and Early Modern times. Through 37 original papers, renowned scholars from many different countries, as well as a number of young and promising researchers, write the history of the philosophical problems of freedom and determinism since its origins in pre-Socratic philosophy up to the seventeenth century. The main focus points are classic Antiquity (Plato and Aristotle), the Neoplatonic synthesis of late Antiquity (Plotinus, Proclus, Simplicius) and thirteenth-century scholasticism (Thomas Aquinas, Henry of Ghent). They do not only represent key moments in the intellectual history of the West but are also the central figures and periods to which Carlos Steel, the dedicatory of this volume, has devoted his philosophical career.

Albert Camus in the 21st Century, 2008-01-01 In the first decade of a

new century this collection of bilingual essays examines Camus's continuing popularity for a new generation of readers. In crucial respects the world Camus knew has changed beyond all recognition: decolonization, the fall of the Iron Curtain, a new era of globalization and the rise of new forms of terrorism have all provoked a reconsideration of Camus's writings. If the Absurd once struck a particular chord, Meursault is as likely now to be seen as a colonial figure who expresses the alienation of the settler from the land of his birth. Yet this increasing orthodoxy must also take account of the reasons why a new community of Algerian readers have embraced Camus. Equally once isolated because of his anti-Communist stance, Camus has been taken up by disaffected members of the Left, convinced that new forms of totalitarianism are abroad in the world. This volume, which ranges from interpretations of Camus's literary works, his journalism and his political writings, will be of interest to all those seeking to re-evaluate Camus's work in the light of ethical and political issues that are of continuing relevance today.

PROMOTION DE LA SANTÉ ET AUTONOMISATION DANS LE CONTEXTE AFRICAIN David Houžto, Glenn Laverack, 2014-02-26

Le terme promotion de la santé en Afrique préné de 30 ans après l'adoption de la Charte d'Ottawa continue d'avoir des connotations complètement hors du sens que lui confère cette charte. Cela n'est pas tonnant quand on sait que la notion de santé dans ce contexte africainquivaut la lutte contre la maladie travers les soins de santé dispensés par des

professionnels de la santé dans des formations sanitaires et les hôpitaux. L'évolution que connaît le continent depuis quelques décennies est de donner un peu plus de place à la communauté à travers les relais communautaires dans une participation communautaire véritable de son contenu car le pouvoir n'est jamais passé entre les mains des communautés. C'est au vu de tout ceci que le présent ouvrage se propose de tenter d'expliquer les fondements de l'autonomisation communautaire et de la promotion de la santé avec leur importance pour la région africaine en proie aux mauvais indicateurs de santé comparativement aux autres régions du monde.
