Le Lien Social:

Le lien social Pierre-Yves Cusset, 2011-05-18 C'est en faisant référence à sa crise supposée que l'on aborde le plus souvent en France la question du lien social. Les bouleversements que traversent les sociétés européennes du XIX^e siècle sont l'occasion de réfléchir aux fondements d'un lien individuel sociétal qui aujourd'hui ne va plus de soi. Après avoir pris en compte les apports les plus récents de la sociologie des réseaux et des flexions en termes de capital social, l'ouvrage dresse un tableau nuancé de la réalité française. Le lien social moderne parce qu'il est fondamentalement de plus en plus collectif est aussi plus fragile. Il est sans doute moins mis en danger par les transformations qui touchent la sphère privée que par les problèmes de cohabitation, notamment dans les espaces publics qui s'imposent à chacun. Cette deuxième édition a été mise à jour avec les données les plus récentes. Pierre-Yves Cusset est agrégé de sciences économiques et sociales.

Le lien social Sully Prudhomme, 1909

Le lien social du Nord au Sud, 1999-01-01 À l'heure où s'installent de nouvelles formes de pauvreté et où l'idéologie néolibérale promet la régulation du champ social par le libre jeu du marché, en Occident et surtout en Europe, se multiplient les interrogations sur la fragilisation du lien social et sur les nouvelles politiques publiques qui seraient nécessaires pour assurer la cohésion sociale. Ainsi resurgit le questionnement sur l'intégration et le lien social. Alors que ce néolibéralisme est objet de débats publics dans les sociétés qui l'ont inventé, il semble triompher au contraire dans les pays du Sud du fait des pressions extérieures, mais aussi de l'absence de questionnement. Ainsi en Afrique subsaharienne certains prennent la suppression de l'État en faveur de l'auto-organisation des ethnies, alors que la conflictualité du fait ethnique apparaît comme une entrave des processus de pacification et a fortiori d'intégration sociale et politique. Ce livre est structuré autour du questionnement interne des sociétés sur le lien social et l'intégration nationale. Le lien social est-il une valeur sociale ? Quel est l'enracinement historique de ce questionnement ? Quels sont les sujets qui l'ont nourri et les pratiques sociales qui permettent d'en identifier les valeurs et les logiques ? Quelles sont les dynamiques internes qui permettent d'identifier des processus d'intégration sociale au niveau national, régional et local ? Dans un sens complémentaire, quel est le questionnement des sociétés sur les origines des conflits internes ? Comment fonctionnent les services publics mis en place par l'État ? Quels sont les besoins formulés dans la société et lesquels sont pris en compte par les instances nationales, régionales ou supranationales ? Les politiques de développement et de coopération au développement de l'Union européenne sont-elles significatives en la matière ?

Tisser le lien social Alain Supiot, 2004 Quelle qu'elle ait pu être son importance dans l'œuvre des prés de la sociologie, l'idée que tout homme se trouve pris dans un réseau de liens qui tout la fois le retiennent et le soutiennent le brident et le font tenir debout n'est nullement l'apanage des sciences sociales. Des dieux lieurs de la mythologie à l'empire exercé par Internet sur les individus, branchés de l'image du tisserand employé par Platon pour penser la langue ou la Cité aux liens de l'amour ou du pouvoir mis en scène par le théâtre classique, du *vinculum iuris* du droit romain jusqu'à notre notion de réseau, la métaphore du lien semble s'imposer à tous ceux qui cherchent à se représenter la vie en société. Le lien social ne désigne pas un concept qu'il serait possible de réserver à un domaine particulier du savoir, mais bien plutôt

une image où les civilisations les plus diverses ont pu reconnaître un trait de la condition humaine **Renouer le lien social**

Using Social Benefits to Combat Poverty and Social Exclusion Matti Heikkilä, Susan Kuivalainen, 2002-01-01. This volume explores the nature and scope of the problem of poverty, examines the political responses to poverty, examples of different countries and investigates the existence and use of various definitions and thresholds applied to poverty in policy making. It also examines the variations within income transfers and social benefits designed to prevent or alleviate poverty and material hardship and explores the effectiveness of benefit schemes in reducing poverty. Publisher's description: *Intergenerational solidarity in libraries / La solidarité*

intergénérationnelle dans les bibliothèques Ivanka Stricevic, Ahmed Ksibi, 2012-08-31. Rapid and intensive changes in the information landscape cause changes in social relationships and consequently in relations between generations. Within their social role, libraries should work actively to reduce age segregation and isolation and build cohesive society through intergenerational services and programmes. The authors speak about the intergenerational dialogue in libraries, theories, research and practice and about reading as a link between generations, thus offering to libraries strategies for establishing social cohesion.

Rescuing the Vulnerable Beate Althammer, Lutz Raphael, Tamara Stazic-Wendt, 2016-05-01. In many ways the European welfare state constituted a response to the new forms of social fracture and economic turbulence that were born out of industrialization, challenges that were particularly acute for groups whose integration into society seemed the most tenuous. Covering a range of national cases, this volume explores the relationship of weak social ties to

poverty and how ideas about this relationship informed welfare policies in the nineteenth and twentieth centuries By focusing on three representative populations neglected children the homeless and the unemployed it provides a rich comparative consideration of the shifting perceptions representations and lived experiences of social vulnerability in modern Europe

Social Exclusion Marc Humbert, Yoshimichi Satō, 2012 Just within a few decades the global dream of building a middle class society has vanished almost everywhere giving way to an emerging global nightmare social exclusion France and Japan have been among the most successful societies taken as examples by the rest of the world that it is indeed possible for a nation to include almost an entire population in the middle class However even these two countries have suffered increasing disillusion since the 1980s The main concern of these countries is now social exclusion This book analyzes and contrasts the French and Japanese experiences of social exclusion Although social exclusion in France and Japan are in many respects quite similar in important respects they are also quite different Using a wide array of methodologies the book presents a diverse range of perspectives on the problem of social exclusion and suggests various ways the problem might be resolved Series Stratification and Inequality Vol 13 Annuaire européen. 42.1994(1996) Tsimaratos, P.
