Foley,1992-02-27 This study explores the meanings ascribed to sexual difference in the theories of Charles Fourier the Saint Simonians and Flora Tristan Their concept of the feminine as a moral force justified a wide range of social roles for women In addition the feminine became a symbol of the harmony and co operation envisaged for the future The study shows that while these socialists challenged contemporary sex role definitions the new distinctions which they created nevertheless circumscribed the possibilities for female liberty      **Des mines d'argent et d'or du Nouveau-monde** Michel Chevalier,1847      ,      **Radical Dreams** Elliott H. King,Abigail Susik,2022-03-08 Surrealism is widely thought of as an artistic movement that flourished in Europe between the two world wars However during the 1960s 70s and 80s diverse radical affinity groups underground subcultures and student protest movements proclaimed their connections to surrealism Radical Dreams argues that surrealism was more than an avant garde art movement it was a living current of anti authoritarian resistance Featuring perspectives from scholars across the humanities and distinctively from contemporary

surrealist practitioners this volume examines surrealism's role in postwar oppositional cultures. It demonstrates how surrealism's committed engagement extends beyond the parameters of an artistic style or historical period with chapters devoted to Afrosurrealism, Ted Joans, punk, the Situationist International, the student protests of May 68 and other topics. Privileging interdisciplinary, transhistorical and material culture approaches, contributors address surrealism's interaction with New Left politics, protest movements, the sexual revolution, psychedelia and other subcultural trends around the globe. A revelatory work, *Radical Dreams* definitively shows that the surrealist movement was synonymous with cultural and political radicalism. It will be especially valuable to those interested in the avant garde, contemporary art and radical social movements. In addition to the editors, the contributors to this volume include Mikkel Bolt Rasmussen, Jonathan P. Eburne, David Hopkins, Claire Howard, Michael L. Wy, Alyce Mahon, Gavin Parkinson, Gregory Pierrot, Penelope Rosemont, Ron Sakolsky, Marie Arleth Skov, Ryan Standfest and Sandra Zalman.

**The French-Canadian Idea of Confederation, 1864-1900** A.I. Silver, 1997-12-15. At Confederation, most French Canadians felt their homeland was Quebec; they supported the new arrangement because it separated Quebec from Ontario, creating an autonomous French Canadian province loosely associated with the others. Unaware of other French Canadian groups in British North America, Quebecers were not concerned with minority rights but only with the French character and autonomy of their own province. However, political and economic circumstances necessitated the granting of wide linguistic and educational rights to Quebec's Anglo-Protestant minority. Growing bitterness over the prominence of this minority in what was expected to be a French province was amplified by the discovery that French Catholic minorities were losing their rights in other parts of Canada. Resentment at the fact that Quebec had to grant minority rights while other provinces did not intensified French Quebec nationalism. At the same time, French Quebecers felt sympathy for their co-religionists and co-nationalists in other provinces and tried to defend them against assimilating pressures. Fighting for the rights of Acadians, Franco-Ontarians or western Métis eventually led Quebecers to a new concern for the French fact in other provinces. Professor Silver concludes that by 1900, Quebecers had become thoroughly committed to French Canadian rights not just in Quebec but throughout Canada and had become convinced that the very existence of Confederation was based on such rights. Originally published in 1982, this new edition includes a new preface and conclusion that reflect upon Quebec's continuing struggle to define its place within Canada and the world.

**Kant, Kantianism, and Idealism** Thomas Nenon, 2014-09-19. Kant, Kantianism and Idealism presents an overview of German Idealism, the major movement in philosophy from the late 18th to the middle of the 19th Century. The period was dominated by Kant, Fichte, Schelling and Hegel, whose work influenced not just philosophy but also art, theology and politics. The volume covers not only these major figures but also their main followers and interpreters. These include Kant's younger contemporary Herder, his

early critics such as Jacobi Reinhold and Maimon and his readers Schiller and Schlegel who shaped much of the subsequent reception of Kant in art literature and aesthetics as well as Schopenhauer whose unique appropriation and criticism of theories of cognition later had a decisive influence on Nietzsche The Young Hegelians such as Bruno Bauer Ludwig Feuerbach and David Friedrich Strauss whose writings would influence Engels and Marx are also discussed The influence of Kant and German Idealism also extended into France shaping the thought of such figures as Saint Simon Fourier and Proudhon whose work would prove decisive for subsequent philosophical political and economic thinking in Europe in the second half of the 19th century

**Money Pits: British Mining Companies in the Californian and Australian Gold**

**Rushes of the 1850s** John Woodland, 2016-04-15 Between 1849 and 1853 shares in nearly 120 public companies to exploit the booming goldfields of California and Australia were offered to the British public The companies were collectively capitalised at over 15 million but in the end only some 1 75 million was actually raised between 42 of them with only one company surviving what the newspapers of the day described as a gold bubble This book provides an overview of the entire bubble event its antecedents and its outcomes A number of researchers have investigated an earlier boom in the mid 1820s to reopen gold and silver mines in Latin America and several have studied individual company operations of that period This is the first detailed investigation of the British gold bubble companies of the 1850s and their involvement in the almost simultaneous gold rushes on both sides of the Pacific Ocean

**Promoters and Politicians** Brian J Young, 1979-12-15 The history of the north shore railways provides a case study in the complexities of industrial development in nineteenth century Quebec Constructed in the fifteen years following Confederation the North Shore and the Montreal Colonization Railways reinforced Quebec's integration into a transcontinental unit Yet bankruptcy of both companies in 1875 forced the provincial government to assume ownership of the railways and to shoulder a financial burden that kept the province preoccupied weak and subservient to Ottawa Diverse political clerical and business interests united to construct the railways and to manoeuvre them from private companies into a public venture and ultimately into the Canadian Pacific system The two railways brought new concentrations of capital and power that cut across French and English ethnic lines and sharpened regional rivalries Along the south shore of the St Lawrence both French and English speaking inhabitants protested against the province's commitments to its north shore railways By the late 1870s Quebec City's English community was lobbying hard against the growing power of their English speaking counterparts in Montreal The north shore railways plagued a generation of Quebec politicians and their construction bared incompatible regional aspirations By 1885 years of negotiation scandal and political blackmail culminated in the incorporation of the two north shore railways into the Canadian Pacific system As this study so clearly demonstrates Quebec paid a high price in making its contribution to linking Canada by steel a *mari usque ad mare*

*Marcel Gauchet and the Loss of Common Purpose* Natalie J. Doyle, 2017-12-20 This book explores the work of Marcel Gauchet one of France's most prominent contemporary intellectuals to examine the contemporary crisis of European

democracy It does so by examining the threats from ideological co radicalization associated with the combined impact of economic crisis and Islamic fundamentalism It locates Gauchet s ideas in the context of French intellectual history and notes the significant influence upon it of the social and political theories of Cornelius Castoriadis and Claude Lefort and its reaction against those of Foucault The book reviews the entire scope of Gauchet s writings from the early publications to the most recent publications on the new world of neo liberal individualism economism and globalization The book reveals how Gauchet s work overcomes many of the misunderstandings affecting current discussions of controversial topics including the European Union the nation state political Islam the paradoxes of democracy secularization and reactionary political movements It highlights the need for European societies to rediscover their political underpinnings their capacity to invent a new collective future starting from the nation state and to adapt to a new mode of international relations on a global scale To do so and to counter the threat of radicalization they must retrieve the lost common purpose encapsulated in the notion of democratic sovereignty

**The Rhetoric of Topics and Forms** Gianna Zocco,2021-01-18 The fourth volume of the collected papers of the ICLA congress The Many Languages of Comparative Literature includes articles that study thematic and formal elements of literary texts Although the question of prioritizing either the level of content or that of form has often provoked controversies most contributions here treat them as internally connected While theoretical considerations inform many of the readings the main interest of most articles can be described as rhetorical in the widest sense given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor irony or satire but also that of topoi which were originally viewed as the places where certain arguments could be found but later came to represent the arguments or intellectual themes themselves Another feature shared by most of the articles is the tendency of undeclared thematology which not only reflects the persistence of the charge of positivism but also shows that most scholars prefer to locate themselves within more specific often interdisciplinary fields of literary study In this sense this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology but provides contributions to currently flourishing research areas among them literary multilingualism literature and emotions and ecocriticism

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
