Le capital, la spéculation et la finance au XIXe siècle Claudio Jannet, 1892      Le capital, la spéculation et la finance au XIXe. siècle Claudio Jannet, 1892      Le capital, la spéculation et la finance au 19e siècle Claudio Jannet, 1892      Le capital Claudio Jannet, 1892      *FRE-CAPITAL LA SPECULATION ET* Claudio 1844-1894 Jannet, 2016-08-27      **Annals of the American Academy of Political and Social Science**, 1894      The Annals of the American Academy of Political and Social Science, 1894      The Literary Digest, 1892      Memoirs of the Life and Correspondence of Henry Reeve, C.B., D.C.L; In Two Volumes Henry Reeve, 2025-08-18

Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage      **Sociale Studiën**, 1907      **Social Economics: Retrospect and Prospect** Mark A. Lutz, 2012-12-06

At the very heart of the conception of the present volume lies the conviction that social economics is a highly pluralistic discipline inspired and enriched by several often radically different world views Schumpeterian visions and at times even quite antagonistic social doctrines Yet in spite of all these differences social economists can nevertheless be seen and also approached as some kind of economic brotherhood for various reasons dissatisfied with the austere value free diet offered by the pOSitivistic neoclassical paradigm What all social economists seem to have in common is a profound interest in values and the process of valuation in order to more fully understand both economic behavior and the possibilities of improving the economic system Such a distinguishing characteristic is also well articulated and enshrined in Article I of the Constitution of the Association of Social Economics where we are told that the aims and objectives of the Association shall be 1 To foster research and publication centered on the reciprocal relationship between economic science and broader questions of human dignity ethical values and social philosophy and to encourage the efforts of all scholars who are dedicated to exploring the ethical presuppositions and implications of economic science 2 To consider the personal and social dimensions of economic problems and to assist in the formulation of economic policies consistent with a concern for ethical values and pluralistic community and the demands of personal dignity      **History of Mathematics** David E. Smith, 1958-06-01

Within this two volume edition Professor Smith covers the entire history of mathematics in the Near and Far East and the West from primitive number concepts to the calculus His account is distinguished by impeccable scholarship combined with unusual clarity and readability Footnotes add many technical points outside the book s actual line of development and direct the reader to disputed matters and source readings Hundreds of illustrations from Egyptian papyri Hindu Chinese and Japanese manuscripts Greek and Roman texts Medieval treatises maps portraits etc are used along with modern graphs and diagrams Every major figure from Euclid to Descartes Gauss and Riemann and hundreds of lesser known figures Theon of Smyrna Rabbi ben Ezra Radulph of Laon Mersenns Benedetti and more are considered both with respect to specific problems and with an awareness of their overall influence on mathematics Volume II Special Topics considering
