

Darwinism

.Darwinisme est un terme qui décrit les idées de Charles Darwin, en particulier en ce qui concerne l'évolution biologique par la sélection naturelle.

.Darwinisme n'est pas synonyme d'évolution, celle-ci est antérieure à Charles Darwin: Darwin théories évoluent, mais sa contribution est la notion de sélection naturelle qui est crucial pour expliquer la cause de l'évolution [1], et ses développement, avec de nombreuses entrées et les corrections, permettent la formulation de la théorie de l'évolution moderne de l'évolution ou de synthèse. Par conséquent, il est tout aussi erroné d'utiliser le terme de «darwinisme», lorsque nous nous référons à la théorie de l'évolution, car il ne se limite pas à l'idée avancée par Charles Darwin.
