The Oxford Handbook of the South African Economy Arkebe Oqubay, Fiona Tregenna, Imraan Valodia, 2021-11-18 While sharing some characteristics with other middle income countries South Africa is a country with a unique economic history and distinctive economic features It is a regional economic powerhouse that plays a significant role not only in southern Africa and in the continent but also as a member of BRICS However there has been a lack of structural transformation and weak economic growth and South Africa faces the profound triple challenges of poverty inequality and unemployment Any meaningful debate about economic policies to address these challenges needs to be informed by a deep understanding of historical developments robust empirical evidence and rigorous analysis of South Africa's complex economic landscape This volume seeks to provide a wide ranging set of original detailed and state of the art analytical perspectives that contribute to scientific knowledge as well as to well informed and productive discourse on the South African economy While concentrating on the more recent economic issues facing South Africa the handbook also provides historical and political context It offers an in depth examination of strategic issues in the country's key economic sectors and brings together diverse analytical perspectives

Institutional Arrangements for Conservation, Development and Tourism in Eastern and Southern Africa René van der Duim, Machiel Lamers, Jakomijn van Wijk, 2014-11-16 This book presents an overview of different institutional arrangements for tourism biodiversity conservation and rural poverty reduction in eastern and southern Africa These approaches range from conservancies in Namibia community based organizations in Botswana conservation enterprises in Kenya private game reserves in South Africa to sport hunting in Uganda and transfrontier conservation areas The book presents a comparative analysis of these arrangements and highlights that most arrangements emerged in the 1990s through either a decentralized or centralized change trajectory that was sponsored by donors They aim to address some of the challenges of the fortress types of conservation by combining principles of community based natural resource management with a neoliberal approach to conservation evident in the use of tourism as the main mechanism for accruing benefits from wildlife The book illustrates the empirical relevance of these novel arrangements by presenting their growth in numbers and discuss how these arrangements differ in their form With respect to the conservation and development impacts of these arrangements we show that they have secured large amounts of land for conservation but also generated governance challenges and disputes on tourism benefit sharing affecting the stability of these arrangements to generate socioeconomic and conservation benefits

Chinese Investment in Africa Freedom Mazwi, George T. Mudimu, Kirk Helliker, 2024-03-01 This edited volume systematically interrogates the Chinese investment presence in Africa focusing on land and agriculture mining and other infrastructural projects In doing so the form and extent of Chinese debt will be brought into perspective with comparisons made to investments in Africa emanating from metropolitan capitalism The volume examines the development potential of these investments by focusing on the labour regimes created and the effects

of investments on the land based agricultural livelihoods of the African peasantry This entails the use of a political economy approach which incorporates the state international actors and local communities into the analysis with gender dynamics also of great significance Overall the contributions in this volume focus on an array of African nations with a specific focus on Zimbabwe and they deploy a large wealth of primary field based data collected over a number of years by established and emerging scholars living and working on the continent
