Anthony Patt,2015-07-16 Climate change will be an ecological and humanitarian catastrophe unless we move quickly to eliminate greenhouse gas emissions Policy experts advise us that we need to make major changes to our lifestyles and our governments need to agree globally binding treaties and implement market instruments like carbon taxes This advice is a mistake it treats technological innovation as being at the periphery of the climate policy challenge whereas it needs to be at its core we will phase out emissions when and only when the technologies to replace fossil fuels are good enough and policies need quickly to support these new technologies directly Anyone with an interest in climate change and energy policy will find this book forward thinking and invaluable Professional policy makers climate and energy policy researchers and students of energy and public policy economics political science environmental studies and geography will find this book especially stimulating **The African National Congress and the Regeneration of Political Power** Susan Booysen,2011-11-11

The African National Congress is light years beyond the liberation movement of old It remains a juggernaut but its control and dominance are no longer watertight The ANC lives the contradictions of weaknesses cracks and factions while retaining its colossal status As a party movement it draws on its liberation credentials and extracts immense power from its deep anchorage in South Africa s people It is immersed in electoral politics that marks the state of its overwhelming power cyclically As government the ANC is the object of protest but not protest designed to bring the ruling party to its knees The ANC is in command of the state yet fails to definitively counter the deficits that make South Africa s democracy seem so diluted Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not pass through the eye of the needle The ANC and the Regeneration of Political Power unpacks these contradictions It focuses on four faces of the ANC s political power the organisation the people political parties and elections and policy and government and explores how the ANC has acted since 1994 to continuously regenerate its power By 2011 12 the power configurations around the ANC were converging to a conjuncture holding vexing uncertainties This book presents insights into how South African politics in many ways synonymous with the politics of the ANC is likely to unfold in years and possibly decades to come **Natural Hazards and Disasters** Bimal Kanti Paul,2020-12-07 This two volume encyclopedia provides the science behind such heart pumping geophysical hazards as volcanic eruptions earthquakes cyclones and floods as well as

*Harold-Barry: A Mission Divided*, 2023-04-05 ELEVEN JESUITS SET OUT FOR THE INTERIOR OF SOUTHERN AFRICA BY OX WAGON IN APRIL 1 879 ON A MISSION TO PREACH THE CHRISTIAN GOSPEL TO THE PEOPLE BEYOND THE LIMPOPO RIVER WITHIN A YEAR AND A HALF THREE OF THEM WERE DEAD They shared the same ignorance of Africa as their European contemporaries concerning disease geography culture religion and the political rivalries of the people among whom they came They also shared a narrow frame of reference towards the continent and the failure of imagination that went with it Further as people of their time they saw and were seen by other denominations as rivals and far from co operating the churches indulged in an unseemly competition And yet these men were in their own way heroic and faced the difficulties eagerly even joyfully Their failures and disappointments far outweighed the little progress they appear to have made but they laid the foundations for what was to follow after 1890 when the colony of Southern Rhodesia was established This event inaugurated a ninety year period when relations between church and state waxed and waned The missionaries welcomed the order even if it could not be called peace and the infrastructure the colonisers introduced The speed of travel for instance went from about 15 km a day by ox wagon to 30 km an hour by train But the Church and the Jesuits were for long the drivers

of what we mean by Church never managed to decide on a coherent policy vis a vis the white government until it was too late. They were divided: the majority of Jesuits worked with blacks but there was a sizeable number who worked exclusively with whites. So while we can document the enormous and fruitful work that was done over the decades after 1890 we have to acknowledge the failure to give a united witness in confronting the nakedly racist policies of the state. If we had been able to do this in the 1920s and 30s we might have contributed to the evolution of a more harmonious society and avoided the terrible bloodshed of subsequent years.

Territorial Governance and Spatial Transformation in Post-apartheid South Africa Daniel du Plessis, 2025-07-05. The book provides a reflective account of the evolution of the territorial governance structures and processes in South Africa over a period of 30 years after the transition to a post apartheid society in 1994. It also considers the role and influence of these changing governance institutions and processes and their associated outputs in the form of policies and plans on several priority dimensions of urban spatial transformation. The synthesis of the experiences and lessons learnt provides the bases for contemplating important future focus areas for territorial governance such as spatial transformation towards smart cities, an African perspective for future South African cities and transitioning towards a streamlined integrated territorial governance system. The lessons and experiences are not only of local significance in South Africa but also globally in countries and regions faced with territorial governance and spatial transformation challenges.

**Why We Kill** Karl Kemp, 2024-03-02. Why do so many South Africans prefer taking the law into their own hands to relying on the police? Why are those who do so often cheered or sympathised with? Of the unprecedented 27 000 recorded murders in South Africa in 2022 at least 1 894 or 7 per cent were attributed to mob justice and vigilantism, more than double the number from five years before. In the first nine months of 2023 a further 1 472 mob justice deaths had already been registered. Mob justice is nothing new but in recent years it has taken on an undeniably desperate, furious edge. From the breathtakingly violent Zandspruit massacre in May 2021 to the killings during the July unrest two months later to the march of Operation Dudula across the nation in 2022, vigilantism and the condoning of it has never before captured the zeitgeist of South Africa so sharply. What has changed in the past few years and what does it augur for the future? Following three recent cases of mob justice from the hellish metropolitan townships of Gauteng to the far flung bushveld of northern Limpopo and drawing on extensive research and interviews, **Why We Kill** explores the roots, realities and consequences of South Africa's current crisis of vigilantism.

**Building a Capable State** Ian Palmer, Nishendra Moodley, Susan Parnell, 2017-11-15. The sustainable development goals signed in 2016 marked a new phase in global development thinking, one which is focused on ecologically and fiscally sustainable human settlements. Few countries offer a better testing ground for their attainment than post apartheid South Africa. Since the coming to power of the African National Congress the country has undergone a policy making revolution driven by an urgent need to improve access to services for the country's black majority. A quarter century on from the fall of apartheid, **Building a Capable State** asks what lessons can be learned from the South African experience.

The book assesses whether the South African government has succeeded in improving service delivery focusing on the vital sectors of water and sanitation energy roads public transport and housing Emphasizing the often overlooked role of local government institutions and finance the book demonstrates that effective service delivery can have a profound impact on the social structure of emerging economies and must form an integral part of any future development strategy A comprehensive examination of urban service delivery in the global South Building a Capable State is essential reading for students and practitioners across the social sciences public finance and engineering sectors
